PH PROGRAM NEWS

PIH Posts Formula Income Worksheet for Jobs Plus Grantees

Yesterday on the [calendar year \(CY\) 2020 subsidy processing webpage](#), HUD's Office of Public and Indian Housing (PIH) posted the [CY 2020 adjustment worksheet](#) for per unit month formula income calculations due to the [Jobs Plus](#) earned income disregard ([JPEID](#)). The worksheet is dated February 3.

Last year the PIH office posted a two-page [guidance document](#) explaining that PHAs must make adjustments to formula income to prevent operating subsidy overpayments due to the JPEID. Reimbursements for reduced tenant rents due to the JPEID must come only from the Jobs Plus grant and not from additional operating subsidies.

Validated worksheet data will be used as part of the operating subsidy process following field office review. The operating subsidy adjustment applies to Jobs Plus grantees only and does not apply to the standard public housing earned income disallowance (referred to as EID).

HUD Identifies Potential Error in HUD-52723 and HUD-52722 Excel Tools

In an email to executive directors today, via HUD's Financial Management Division ([FMD](#)) [mailing list](#), the FMD advised that HUD identified a potential error in the HUD-52723 and HUD-52722 Excel tools for CY 2020. According to the email, "HUD is looking into this issue to confirm whether the current Excel tools contain the error. In the meantime, PHAs should refrain from submitting their Excel tools to their field office." HUD plans to provide further direction in the next few days and encourage PHAs to contact their local field office with any additional questions.
