

THEFT DETERRENT RESPIRATORY HYGIENE STATION G

LIFE SAFETY SERVICES
YOU'RE SAFE WITH US®

Easy-Access To Your Infection Prevention Items

Our super durable and break resistant Theft Deterrent Respiratory Hygiene Station G displays all of your infection prevention items prominently for hospital and clinic visitors and helps to reinforce CDC guidelines for virus prevention. Constructed from super durable 1/4" thick PETG (stand and countertop base are 1/2" thick acrylic).

Theft Deterrent

This hygiene station has a unique theft deterrent mechanism: the sign holder lifts off from the back. At first glance, a thief will not see how to access the consumables on the inside. If they can't figure out how to take the items immediately, they are more likely to leave them alone.

System Holds:

- Two boxes of masks
- One large box of tissues (or two half sizes) per side, or a tissue/mask combo
- Pump bottle of hand sanitizer
- 8.5x11" sign (print your own sign)
- Removable drip tray

We offer hand sanitizer bottles made to fit this Respiratory Hygiene Station. The bottle holds 16 oz or 473 ml of sanitizing gel using a convenient pump dispenser. The citrus-scented gel hand sanitizer contains 62% alcohol, exceeding FDA requirements. (Hand Sanitizer: \$12.95/each)
