

T-i^x 3500

Intelligent
Cash Counting

The Tellermate T-i^x 3500 accurately counts a cash drawer in under a minute, reducing errors and giving you more time to focus on profit producing tasks.

Counts in less than 60 seconds.

It gives you all the help you need to cash up, prepare floats and bank deposits and reduce discrepancies.

The integrated keypad makes it easier to enter balances, reference numbers and media items, enabling you to reconcile your cash drawer in under one minute.

Available in both single and multi-till options, the T-i^x 3500 is designed to adapt to your specific needs. Plus, it's fully connected. Count data can be sent to a Tellermate printer or directly to your PC via USB or serial connection. This data can be used to identify discrepancies allowing you to act on them swiftly and confidently.

Multiple count tasks and currency options available

Multiple drawer handling with the T-i^x 3500

Option to connect to a Tellermate printer

Software upgradeable via USB or PC download

Send data via USB or serial connection

Smart, tough and accurate

T-i^x 3500
Intelligent
Cash Counting

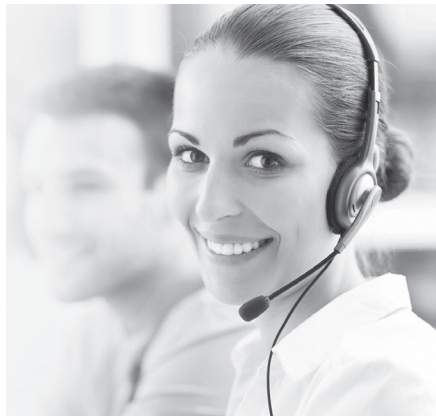

We design our cash counters so anyone in your business can learn to use them quickly and easily.

Our intuitive menus guide users through the steps of each counting task. The large backlit display makes features easy to find and use.

Our cash counters are light, portable and tough with a liquid resistant key mat to protect against spills.

Customer Support

The TellerMate Customer Support team is there to help you every step of the way. Our team is able to solve the majority of customer queries over the phone, easily and efficiently.

Input

The T-iX 3500 can count loose coins & bills, bundled bills, bagged coins and coupons.

Control

A large backlit display with clear icons and keypad is easy to use and read, preventing usage errors.

Connect

Data can be sent to a TellerMate printer or your PC, giving you an excellent overview of your cash management.
