Deploying Jaspersoft Reports

Your Guide: Ben Rimmasch, David Zywiec

Introductions

- Take 5 Minutes
- Turn to a Person Near You
- Introduce Yourself

Agenda

- Jaspersoft Introduction
- Manual Migration
- Jaspersoft Domain Migration
- Import / Export Migration
- Q&A

Goals of this session

- You will leave the session with answers to the following questions:
 - How do I migrate a Jaspersoft Studio Report from one environment to the other?
 - Are tools available for me to help this process?

Import & Export Tool

*rego*University 2017

Let Rego be your guide.

Import & Export Tool

The import & export tool is available for customers that are On Premise or On Demand with version 14.3+ (Patch 7).

This tool allows the administrator to zip up resources & entire folders and migrate them to their other environments.

Supporting How To:

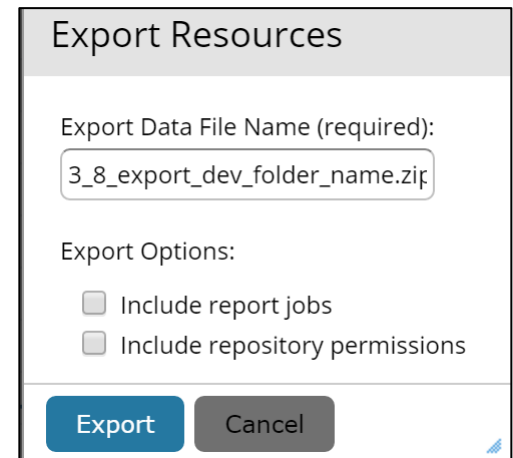

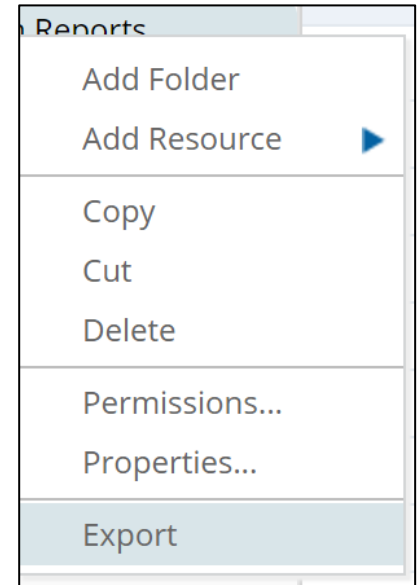

<http://community.jaspersoft.com/documentation/jasperreports-server-administration-guide/v550/import-and-export-through-web-ui>

Export Steps

1. Navigate to the Advanced Reporting module
2. Select the View pulldown on the top menu bar and then click on the Repository link
3. Expand the folder structure till you find either the Folder or Resource/Report you want to export

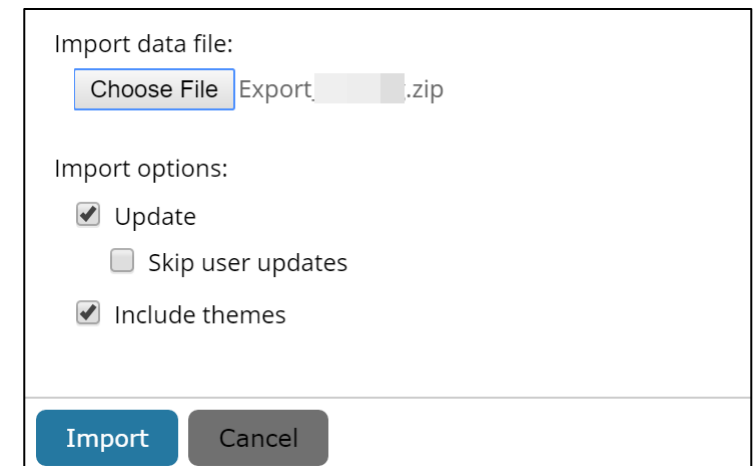

Note: If you are exporting a report with input controls that are not in the other environment, make sure to export the input controls and then the report.

4. Right click on the item and select export.
5. Name the zip file appropriately
6. Uncheck the Include Report Jobs & Include Repository permissions
7. Select Export

Import Steps

1. Navigate to the Advanced Reporting module
2. Select the Manage pulldown on the top menu bar and then click on the Organizations link
3. Right click on your organization name in the list on the right side
4. Select the Import option
5. Select the ZIP you saved during the export steps.
6. Select Import

Best Practice Tips

- Export & Import Resources attached to the report first.
 - Images
 - Input Controls
 - Style Templates
- Keep your resources and reports in separate child folders with the same parent to make exporting/importing easier
- Keep an organized list of changes to reports, as the version control is not turned on during migrations out of the box.

Open Mic

- What are your biggest concerns when it comes to reporting in your organization?
- What struggles have you had with Jaspersoft Studio reporting?
- Is there an aspect of development that takes you a long time that didn't before Jaspersoft?

Thank You For Attending regoUniversity
