Let Rego Be Your Guide

Rego Performance Management Service

Improve the Performance of Your Clarity Environment

Are users complaining about sluggish navigation, long load times, or slow reporting? Is performance contributing to negative end-user perception?

Get work done faster and boost Clarity user adoption rates.

Rego can help.

Improve Performance with Rego's Performance Management Service

- Provide tangible industry benchmarks
- Remove performance-related barriers affecting end-user adoption

- Identify, address, and resolve performance issues

- Senior, onshore consultants who are experts at diagnosing and resolving Clarity performance issues

Insightful
User Based

Beginning with an in-depth look at usage across the application, based on the actual user experience, our team will show you where to get started.

Proactive
Environment Analysis

With monthly reviews and constant analysis, we are proactively monitoring your Clarity environment to identify problems before you know they even exist.

Actionable
Results Driven

Using information collected from your Clarity instance, our team will immediately analyze the data to develop an actionable strategy with proven results.

> " Everything is so much faster! In fact, it took less than two seconds for me to log in, and I have never known what that was like. We'll have the other PMs check it out, so they can be amazed too. "

Dedicated **Performance** Expertise

Take control of your performance issues with comparative benchmarking and proactive problem identification.

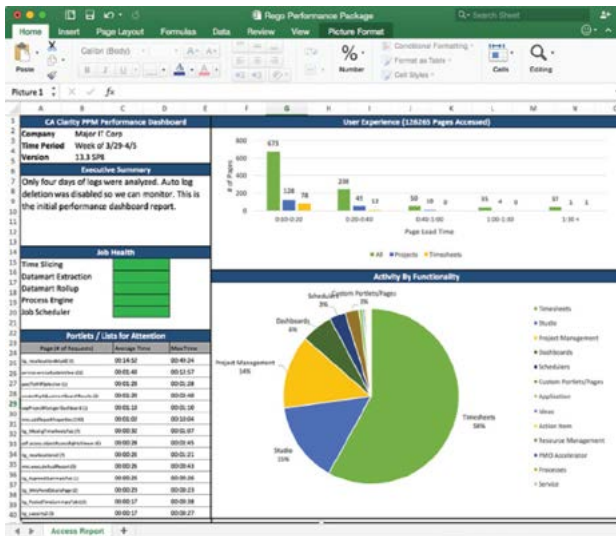

Comparative Benchmarking

Are you interested in seeing how your instance of Clarity performs when compared with other instances of similar size? Rego's Performance Management Service gives you the benchmarking intelligence and insight you need to make the most of your Clarity investment.

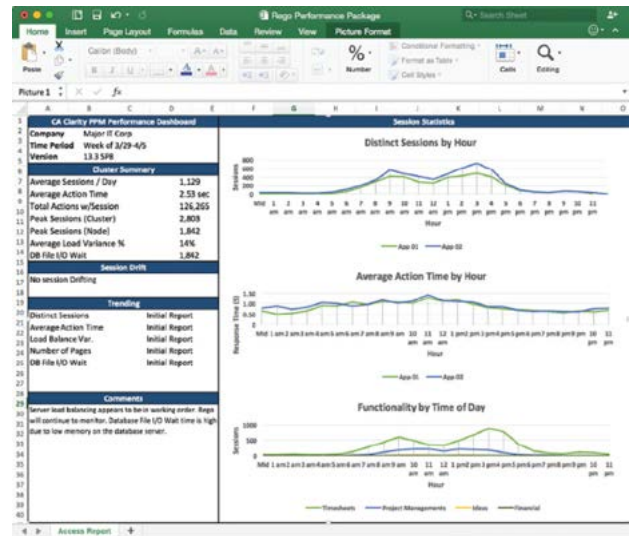

Problem Identification

Does your Clarity instance have pages and portlets with long load times? Our team of experts will show you a list of the slowest Clarity actions, so you can pinpoint performance deficiencies.
