Master the Double-Play with ServiceNow and Meisterplan

Powerful Scenarios for Portfolio and Resource Planning

Are you struggling to develop realistic what-if scenarios, or trying to see resource impacts in real-time?

Advance Productivity with Powerful Real-Time Scenarios

Seamlessly connect Meisterplan and ServiceNow with Rego's Connector

Respond to change with full-picture access to what-if scenarios

See your resource impacts in real-time

Increase productivity and accuracy with easy drag-and-drop functionality

Manage allocations and investments

- Develop what-if scenarios for Demands, Projects, Operational Plans, and other investments
- Understand resource impacts to Users and Roles
- Bring in User Schedules to reflect accurate Availabilities
- Perform dynamic capacity planning using any combination of Planned, Requested, Confirmed, and Allocated resource plans
- Export portfolio scenarios back into ServiceNow to review the impacts

Contact Rego Today to Advance Your Productivity with Meisterplan.
