Let Rego Be Your Guide

Rego Upgrades Stay Current with World-Class Upgrades

Fresh Start Upgrades. On Demand Support & Guidance. In Place Upgrades.

Rego specializes in delivering world-class upgrades for Clarity PPM environments, so you can secure the latest support and functionality. Your requirements and timelines take center-stage.

From the simple to complex, Rego builds, tests, and deploys Clarity PPM upgrades across the industry. Whether you're ready for new functionality, more efficient configurations, ongoing professional support, or a return to out-of-the-box solutions, Rego has the processes and scripts ready for your cost-effective upgrade.

On Premise & On Demand

Free Review

Identify Clarity PPM Functionality

We'll review your environment's architecture stack and identify functional and technical configurations or customizations that may require remediation.

Free Estimate

Cost-Effective Upgrades

Whether you need a simple install, a migration, a data-archive, or a large version jump, we'll propose time, materials, and a fixed-price for your custom approach.

If you've been putting off an upgrade, you'll be relieved to hear Rego believes upgrades should never be expensive or stressful. Our engagement will make your upgrade an exciting, revitalizing time.

Smooth Upgrades | Simple Processes | Efficient Systems

Revitalizing Systems. Supporting People.

Free Upgrade Review and Estimate

Explore Expanded Tool Functionality, New Modules, and Improved Performance.

Rego Upgrades

Say goodbye to stressful, expensive upgrades and enjoy Rego's commitment to helping you revitalize your system, connect with end-users, experience "quick wins," and secure training.

Drive Business Productivity with World-Class Upgrades From Rego.

Upgrade Types

Installation | Testing | Remediation | Training

Technical Support

Assistance for Your Team

For your upgrade, we'll assist with the technical aspects of environment migration and basic system tests. If you need remediation, we can assist with configuration changes and post-deployment technical support.

Technical Support & Testing

Expertise, Integration, and Testing

For your upgrade, we'll perform all the technical aspects of environment migration, integration installs, and system testing. If you need training materials, we're happy to provide on demand and solution-based support.

Full Upgrades

Revitalize Your System

Leverage Rego's full upgrade strategy. We'll migrate your environment from DEV, through QA, and out to PROD with installed integrations, tested timing, documented actions, and managed communication, including end user training, deployment, and project management.

Unmatched Experience | 200+ Upgrades Performed | Reliable Results

Contact us today for a rapid, cost-effective upgrade with Rego's reusable process and collective experience.
