Let Rego Be Your Guide

Enhance Your Clarity User Experience and Productivity

Update data fast with the Excel Data Manager

Powered by **regoLink**

Looking for ways to reduce time spent managing project and portfolio management (PPM) data?

Does your data accuracy suffer when you use different tools?

Save time and ensure data consistency with the Excel Data Manager for Clarity.

Ensures consistency of data in Clarity

Extract, edit, validate, and upload large datasets to Clarity, leveraging Microsoft Excel features

Boosts user productivity and satisfaction

Allows resources to manipulate and update PPM data quickly and easily

Single Sign-On Enabled

Authenticate your Clarity login as you would through a browser using Rego's SSO Weblogin module. Sessions are maintained with each Clarity interaction. Optional setting is available to maintain your session when working offline.

- ✓ Bulk update records, with full lookup support
- ✓ Manage data for 25 out-of-the-box objects
- ✓ Easily attach additional interfaces
- ✓ Latest release includes SSO Support
- ✓ Enhanced auditing and administration capabilities directly in Clarity

Improve PPM Insights and Performance with Rego's Excel Data Manager.
