

CMDB Health Assessment

Receive Actionable Insights to
Boost Your Performance.

Announcing a CMDB health assessment for current ServiceNow CMDB clients. Each health assessment includes a thorough audit and a CMDB Assessment Report, so you can springboard your CMDB capabilities.

How is Rego Different?

Quick identification of improvement areas.

Work with practitioners who are CMDB experts.

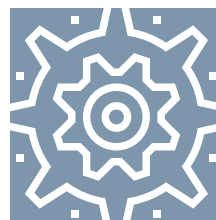

Expertise in how the CMDB contributes to ITBM functions such as ITFM and APM.

Environment Review

Includes assets, product models, ci classifications, and relationships, so you can use CMDB for more than simple technology inventories.

Functionality Review

Includes asset management, configuration and change management integration, and network discovery.

We'll meet to discuss key insights in your CMDB Health Assessment Report, so you can springboard your enterprise capabilities.

CMDB Maturity Assessment

Develop or Review Business Process, Software, and Roadmaps

Leadership Messaging

Facilitate Objective Dialog regarding the value and uses of a robust CMDB with high data integrity

Adoption Strategies

Secure Support from Resistors and Leverage Advocates
