## How Can Rego Help You?

Get the most from your investment and improve productivity by leveraging Rego's extensive experience with Microsoft Products and other common cloud-based solutions. We've helped organizations build everything from collaborative team and departmental sites to eye-catching intranets, effective document management solutions, and custom solutions using the latest Office 365 tools.

## We provide end-to-end consulting services:

### New to Office 365

We can help you decide what's right for your organization. Our team can assist in making your cloud solution a cornerstone in your ecosystem, one that's aligned with your organization and strategies. We'll help ensure efficient management and ease of use.

### Training

Our team provides dedicated training sessions for various types of organizational users, ensuring adoption and decreasing the challenges of using new technologies.

### Automation/Integration

Rego can help you simplify your manual or outdated processes and approval workflows using SharePoint and Microsoft Flow. We are experts on integrations between Office 365/SharePoint and external systems.

### Ready to Upgrade or Migrate?

Interested in moving to Office 365? Or ready to upgrade your SharePoint version? Our team will carry out your migration, ensure the integrity of your data, improve usability, and facilitate a smooth transition.

### Consulting

With best practices and a value-driven approach, Rego can provide advisory and technical consulting oriented to your organizational needs.

### Better Collaboration

Improve team collaboration and centralize team work by using Microsoft Teams.

### Solution Development

Rego can quickly build custom solutions with less expensive "Low Code" tools like PowerApps.

## SharePoint, PPM, and Rego

Trusted by hundreds of organizations in the Portfolio and Project Management space, including 40% of Fortune 100 companies and 60% of Fortune 20 companies, Rego knows how SharePoint and Office 365 best fit this environment. Whether it's project team sites, project management, or document management, we've customized solutions to meet the varying needs of different-sized organizations with different maturity levels.
