Printware Launches New Online Shop For Consumable Order Placement and Management

ST. PAUL, MN – July 11th, 2019 – Printware, a leading supplier of prepress and digital solutions to the print industry, launched a new online shop for consumable order placement and management for their line of fast and profitable short-run envelope solutions, the iJetColor family.

The shop allows iJetColor users to order consumables, track orders, make payments, and view previous order and payment details, aiding the unique responsibilities of operators, press managers, and accountants within a single organization and enhancing communication between Printware and its customers.

Printware is continuing its mission to delight customers with profitable print solutions like no one else in the world with the introduction of this easily accessible online tool.
