

APTITUDE LEASE ACCOUNTING ENGINE

PRODUCT TRAINING

COURSE OVERVIEW

Aptitude Software offers courses that meet the needs of different user roles. Learning tracks are designed to start with a common essentials course that introduces the users to Aptitude Lease Accounting Engine (ALAE) processes and configurations followed by subsequent modules that are grouped for role specific accreditation.

Accreditation is granted to an individual, not to the organisation or client, for a particular version of the Aptitude Software product and at a particular level. Courses include written and practical examinations.

APTITUDE LEASE ACCOUNTING ENGINE (ALAE) ESSENTIALS

- Recommended as an introduction to ALAE users: business analysts, functional & technical practitioners
- Provides an overview of how the engine processes data and generates accounting for IFRS 16/ASC 842 compliance
- 1/2 day course
- Accreditation: ALAE Essentials for ALAE

APTITUDE LEASE ACCOUNTING ENGINE (ALAE) FUNCTIONAL PRACTITIONER

- Recommended as introduction to functional practitioners involved in configuring and processing data for an ALAE project
- 1 day course
- Accreditation when combined with ALAE essentials: Aptitude Functional Practitioners Foundation for ALAE
