

site-works and metering

Our specialists will take the time and hassle out of the process by offering a comprehensive end-to-end service.

INSTALLING NEW UTILITY CONNECTIONS AND METERS CAN BE TIME-CONSUMING, STRESSFUL AND A COSTLY PROCESS FOR YOUR PROJECT, HOWEVER, OUR DEDICATED SITE-WORKS AND METERING TEAM ARE HERE TO HELP.

We are able to provide you with a whole package solution for gas, electricity and water connections on all new or existing commercial, industrial and residential building projects. We can manage the project from initial design and quotation of the works, to connection of the utility, right through to negotiating energy contracts for the client and installing the new meter.

You will be assigned an experienced and professional account manager who will act as a single point of contact, to help manage and guide you through the process from start to finish, keeping you fully up to date on any progress.

The Site-Works and Metering Team will approach multiple service providers for the gas, electricity and water supplies to ensure that your project is as cost effective and as timely as possible. We will also negotiate with numerous energy suppliers to be able to safeguard a competitive rate for the energy contract.

We aim to ensure that the works are completed to the highest standard, and within the fastest period possible. We only work with carefully selected service providers who can deliver the high quality of work we expect. This provides you with peace of mind and confidence in our proposals.

site-works and metering
