

The Growing Process

Designed to bring customers an eating experience that is clean, local, and fresh.

Start

Start from organic seeds or sprouts and let **Aetrium SmartFarm** handle the rest.

Grow

Grown using cutting edge aeroponics technology, plants become more robust and are packed with nutrients.

Table

The result is an offering that is crisp, fresh, and delicious.

Dimensions

24 Tubs and Automated Dosing Unit

L: 10' (3059mm) x **H:** 8' 9.5" (2679mm) x **W:** 5' 3.8" (1622mm)

Square feet/meters: 53.2'/4.9m²

Typical Power Usage: 4200 watts

48 Tubs and ADU

L: 16' 7" (5050mm) x **H:** 8' 8" (2640mm) x **W:** 5' 3.5" (1612mm)

Square feet/meters: 88.2'/8.2m²

Typical Power Usage: 6200 watts

72 Tubs and ADU

L: 23' 2" (7065mm) x **H:** 8' 8" (2640mm) x **W:** 5' 3.5" (1612mm)

Square feet/meters: 123.2'/11.4m²

Typical Power Usage: 8200 watts

Growth Trays:

23.9" **W** x 29.5" **L** x 7.9" **H** (608 x 750 x 200mm)
- 24, 48 or 72 x 63 count trays for 2" net cups
- Planting density is user adjustable with caps to fill unused holes

Aeroponic Spray system: 12 x 12.5 degree emitters spraying upward

Lights:

One 4-LED panel (full spectrum "white"), per grow tub
PPFD greater than 200 $\mu\text{mol}/\text{m}^2/\text{s}$

Automated dimming via software

Growth Area: 4 Layers

Plant height: adjustable from 9" (229mm) to 12" (305mm)

Air Movement: optional fans available to provide control of air movement for each level

Scaled & Stacked

The **Ætrium SmartFarm** delivers fast, safe, and reliable produce in **volume**. This stacked 4 layer automated grow system was created with modularity and high volume commercial cultivators in mind.

Modular Growth

One of **Ætrium Smartfarm's** versatile features is its modularity. You can grow multiple different varieties and species at anytime. Simply swap out a tray and **Ætrium SmartFarm** does the rest.

Clean &
Safe

Ætrium SmartFarm is designed to work well in cleanrooms, preventing the introduction of pests and growing a clean, safe, harvest.

Resource
Efficient

Optimized growth LEDs, smart irrigation, and automated nutrient dosing all add up in cost savings for your commercial operation.

Grow
Locally

Ætrium SmartFarm conveniently fits in urban grow environments, whether it's a plant factory or a mobile shipping container.
