

AEpic™

Cloning & Vegging LED

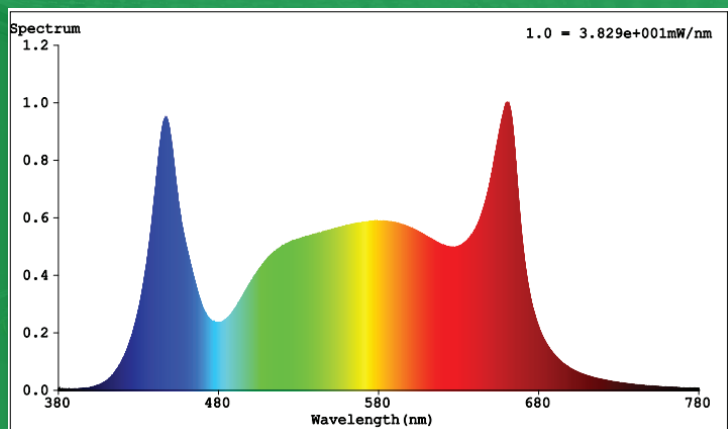

- Photon flux: up to 900 $\mu\text{mol/s/m}^2$ @ 12" height
- 4' x 5' footprint
- Uniform light at close range
- Mix of red, blue, and white LEDs
- Dimmable
- Optimized passive cooling
- Can be controlled by AEtrium Guardian™

APex™

Vegging & Blooming LED

- Photon flux: up to 900 $\mu\text{mol/s/m}^2$ @ 20" height
- 4' x 4' footprint
- Several panels can be joined together to increase light uniformity
- Mix of red, blue, UV, and white LEDs
- Dimmable, adjustable spectrum
- Can be controlled by AEtrium Guardian™

AEdge™

Cloning & Vegging LED

- 0.67" thin LED panel
- Photon flux: up to 324 $\mu\text{mol/s/m}^2$ @ 6" height
- 12" x 40" footprint
- Mix of red and white LEDs for the perfect spectrum
- Optimized passive cooling

A - 1281 Reamwood Ave. Sunnyvale CA, 94089
