# AUDIT

Second quarter 2009 figures have neither been audited nor reviewed by the Group's auditors.

## **ACCOUNTING POLICIES**

The accounting policies and method of computation adopted are consistent with those used in the most recently audited financial statements, except for the following accounting standards, amendments to standards and interpretation that are effective for annual reporting periods beginning 1 January 2009:

- IAS 1 Presentation of Financial Statements (Amended)
- IFRS 2 Share-based Payment (Amended)
- IFRS 3 Business Combinations (Revised)
- IFRS 8 Operating Segments
- IFRIC 13 Customer Loyalty Programmes
- IFRIC 15 Agreements for Construction of Real Estate
- IFRIC 16 Hedges of Net Investment in a Foreign Operation
- IAS 23 Borrowing Costs (Revised)
- IAS 27 Consolidated and Separate Financial Statements (Amended)
- IAS 32 Financial Instrument: Presentation (Amended)
- IAS 39 Financial Instruments: Recognition and Measurement (Amended)

IAS 1 Presentation of Financial Statements (Amended) requires that changes in equity during the period other than changes resulting from transactions with owners in their capacity as owners, be presented in a "statement of comprehensive income".

Other than the change in disclosures relating to IAS 1, the Group's adoption of the new and revised standards has no significant impact on the Group's net profit attributable to shareholders in the current and prior periods.

## **REVIEW OF OPERATING PERFORMANCE FOR 2Q AND FIRST HALF 2009**

#### Second Quarter

Sales decreased by 11% to US\$78.9 million from US\$88.6 million mainly due to lower export sales across markets, the unfavourable currency translation of the Philippines' results amounting to US\$5.5 million, given the 12% depreciation of the peso, and the foregone US\$5.2 million of sales from loss-making Great Lakes in China, which was divested in September 2008. Stripping out these last two factors, Group turnover for the second quarter would have increased slightly by 1%.

Amidst a weak food and beverage retail environment, the Group's Philippine market's sales remained strong in peso terms, rising 11% driven by the continued growth of its very successful Del Monte Fit 'n Right juice drink in PET bottles, culinary products and the food service sector. However, Philippine sales dipped by 2% in US dollar terms.

The Group continued to launch new innovative products including:

- Fit 'n Right Fruit Snacks to broaden the company's snack offering and stimulate fruit consumption among the largely untapped young adult segment
- A revolutionary new fruit and vegetable drink in Tetra Pak targeted at schoolchildren, the first product catering directly to this underserved kids segment
- Quick n Easy culinary range and a new more affordable tomato sauce sachet

Food service sales continued to increase behind the Group's dominance in on-premise juice sales. Despite the annualised effect of price increases implemented in 2008, average prices in the Philippine market were the same as last year due to sales mix. The sales growth was primarily volume-driven across beverage, culinary and food service categories, with only fruits and snacks posting a decline versus the same period last year.

S&W saw a 42% increase in total sales in the second quarter amounting to US\$2.7million, including fresh pineapples. This reflects strong growth in fresh fruit and distribution of processed products such as tropical fruit into South Korea and southern China.

Total fresh pineapple sales, including non-S&W branded fruit, more than doubled to US\$1.9 million from the same period last year.

As expected, export sales to Europe, North America and Asia Pacific continued to lag behind last year. Exports were down 14% amidst the weak global demand resulting in lower orders across all markets. This was, however, a much lower rate of decline than the 27% in the first quarter.

While gross margin improved slightly by 1% to 24.7% from 23.6% on higher pricing in most markets and the favourable impact of the peso depreciation on translation of costs, gross profit decreased by 7% to US\$19.4 million from US\$20.9 million as a result of lower turnover.

Profit from operations declined 18% to US\$8.5 million from US\$10.3 million on the lower gross profit, coupled with higher selling and other expenses for the quarter due to timing of initiatives to support new products.

In India, the Group recognised a share of loss of US\$1.0 million in its FieldFresh joint venture company with the Bharti Group for its 41.6% stake in the company. This was slightly higher than the US\$0.8 million share of loss recognised in the same period last year. Product contribution margins significantly improved on much better sales mix with the contribution of the Del Monte branded processed foods business and the rationalised product range in fresh exports under the FieldFresh brand. The higher loss, however, was due to brand building investments through higher marketing and organizational expenses to support the expansion of the company's fruit drinks, packaged fruits, ketchup & sauces and Italian range products across more cities. In May, FieldFresh successfully launched the Del Monte brand in India through the "Get a taste of a legend" campaign geared towards building on the heritage of the Del Monte brand, which is now available in 12 major cities.

Net profit decreased in the second quarter at a lower rate of 9% to US\$5.1 million, compared with the 32% in the first quarter. Among others, the first quarter reflected a one-time foreign exchange hedging loss which was not the case in the second quarter.

Slowdown in global demand led to higher inventory levels. This resulted in higher borrowings and interest expense. Management is actively working to reduce inventory days for key materials such as tinplate and tomato paste to improve working capital for the remainder of the year.

Operating cash flow decreased to US\$4 million from US\$5.3 million in the prior year quarter mainly due to lower profit and working capital requirements. The Company ended with a net debt position of US\$109.3 million as of 30 June 2009, resulting in a gearing of 56%, mainly due to working capital requirements.

#### First Half

Group turnover for the first half of 2009 fell 13% to US\$139.3 million from US\$160.3 million due to the same reasons as those for the second quarter.

Philippine market's sales were higher by 15% in peso terms versus the same period last year, driven by strong Fit 'n Right juice drink sales. However, in US dollar terms, Philippine sales was flat due to the unfavourable impact of the 15% peso depreciation upon translation of peso sales to US dollars. The currency translation loss amounted to US\$13.0 million of sales.

S&W contributed US\$4.6 million in sales, including fresh, up 84% compared to the same period last year.

Stripping out the combined unfavourable impact of US\$24.6 million from the currency translation loss and foregone Great Lakes sales of US\$11.6 million, Group turnover for the second quarter of 2009 would have increased slightly by 1%.

While gross margin improved slightly to 25.1% from 22.9% on better pricing in most markets and the favourable impact of the peso depreciation on costs, gross profit decreased by 5% to US\$35.0 million from US\$36.6 million as a result of lower turnover.

Operating profit dropped by 13% to US\$15.6 million from US\$18.0 million on lower gross profit coupled with higher other operating expenses.

For the first half, the Group recognised a share of loss in FieldFresh India of US\$1.8 million for its 41.6% stake in the company, 8% higher than prior year.

Net income fell 21% to US\$9.1 million from US\$11.6 million. The rate of decline was largely due to the first quarter performance, which was down 32%.

Cash flow from operations decreased to negative US\$20.7 million from negative US\$7.6 million in the prior year period, mainly due to higher working capital requirement, in particular inventories, which was the result of the slowdown in global demand.

### VARIANCE FROM PROSPECT STATEMENT

The second quarter 2009 results, given the much lower rate of decline, were better than the first quarter but still behind last year's performance. Management expects to at least maintain earnings for the full year of 2009.

## **BUSINESS OUTLOOK**

In the second quarter, the Group has begun to bridge the earnings gap versus last year and this will continue through the third quarter as the Group maximises the potential of its growing brands and markets through product, marketing and sales-driven growth in the Philippines, and market and product portfolio expansion for S&W, Fresh Pineapple and FieldFresh to grow its branded business. The Group will also optimise its exports sales mix, while aggressively reducing non-value adding costs, increasing productivity to protect margins and intensifying efforts to manage working capital more efficiently.

In the Philippines, the Group will intensify its drive to provide consumers with value-for-money offerings. The beverage portfolio is expected to expand under the Del Monte Fit 'n Right brand while volume will be maximised behind the culinary line under the Del Monte Quick n Easy brand, offering cooking enthusiasts with meal mixes and sauces for affordable and convenient home cooking. Fit 'n Right Fruit Snacks is expected to broaden the company's snack offering and stimulate fruit consumption among the largely untapped young adult segment. Food service sales are projected to continue expanding behind the Group's dominance in on-premise juice sales.

The exports business will continue to catch up and narrow the gap versus last year's performance. In India, with the successful Del Monte consumer marketing campaign launch at the end of May through the FieldFresh joint venture with the Bharti Group, the Del Monte brand is now available in 12 key cities and we expect the expansion of brand building investments through higher marketing and organizational expenses to support the expansion of the company's fruit drinks, packaged fruits, ketchup & sauces and Italian range products across more cities, tapping both modern trade and the foodservice sector. Continued business building investments in marketing and the processed foods organization will support this expansion. The fresh export business under the FieldFresh brand is now focused on corn and reflects a rationalised, more profitable product range. The fresh domestic segment will also focus on selected fresh fruits and vegetables which are more profitable and scalable. FieldFresh is not expected to contribute to the Group's bottom line in the near term as it is still building up scale.

S&W brand sales, both processed fruits and vegetables, as well as fresh pineapple, will continue to grow. Before the end of the third quarter, S&W's organization will be reinforced with key hires for critical positions.

Barring any unforeseen circumstances, Management expects earnings to be at least maintained at last year's level.

#### ASIA PACIFIC

#### Second Quarter

Turnover in Asia Pacific, which accounted for 76% of the Group's turnover in the second quarter of 2009, declined 13% to US\$59.7 million from US\$68.2 million. The decline was primarily due to the foregone US\$5.2 million in sales from Great Lakes which was divested on 30 September 2008 and lower sales to other Asia Pacific markets due to weak consumption.

Moreover, the 12% peso depreciation against the US dollar in the second quarter of 2009 versus the same period last year unfavourably impacted the translation of our Philippine market sales in peso to US dollar. Turnover for the Philippine market grew by 11% in peso terms, driven by the Fit 'n Right juice drink sales, but dipped by 2% in US dollar terms.

Stripping out the unfavourable forex impact on the Philippines and foregone Great Lakes turnover, sales would have been slightly higher by 4% versus year ago. Gross profit and operating income would have declined by a lower 8% and 27% respectively, instead of 20% and 43%.

#### First Half

Turnover in Asia Pacific, which accounted for 76% of the Group's turnover in the first half of 2009, dropped 12% to US\$105.8 million from US\$119.7 million, for the same reasons cited above. Great Lakes posted US\$11.6 million in sales in the first half of 2008 which were foregone in 2009.

Philippine market's sales were higher by 15% in peso terms versus the same period last year. Without the effect of forex on the Philippine sales translation and foregone Great Lakes sales, Asia Pacific sales would have been slightly higher versus the same period last year.

Lower turnover led to a decline in gross profit and operating profit of 14% and 31%, respectively.

#### EUROPE AND NORTH AMERICA

#### Second Quarter

Turnover in Europe and North America accounted for 24% of Group turnover this quarter. It declined by 5% to US\$19.2 million from US\$20.3 million, primarily due to reduced volume of processed fruits and concentrate to Europe and North America, partially offset by better pricing.

However, gross profit increased more than threefold to US\$3.7 million from US\$1.2 million due to better pricing and the favourable impact of the peso depreciation on the translation of peso costs to US dollar. Operating profit turned around to US\$2.4 million from a loss of US\$0.2 million last year.

#### First Half

Accounting for 24% of total turnover for the first half of 2009, turnover for Europe and North America declined by 17% to US\$33.5 million from US\$40.6 million, for the same reasons mentioned above.

However, gross profit grew strongly to US\$5.2 million from US\$2.3 million due to better pricing and the favourable impact of the peso depreciation on the translation of peso costs to US dollar. Operating profit likewise improved to US\$3.1 million from a loss of US\$0.2 million in the same period last year.

Had it not been for the favourable impact of the peso depreciation, Europe and North America would have posted a much lower operating income of US\$0.2 million.

#### PROCESSED PRODUCTS

#### Second Quarter

Processed products, our largest product category, contributed 54% to Group turnover in the second quarter. This segment comprises of processed fruits and vegetables (pineapple, tropical mixed fruit, tomato-based products), and other processed products such as pasta and condiments. It also includes

sales of S&W branded processed products and Del Monte branded processed products such as canned vegetable and deciduous fruits sourced from other Del Monte companies.

Turnover of processed product fell 18% to US\$42.6 million from US\$51.6 million due to lower volume across all categories given the weak consumption, compounded by the negative impact of the peso depreciation on the translation of Philippine sales from peso to US dollar.

Gross profit declined by 27% to US\$8.9 million from US\$12.1 million due to lower turnover while operating profit fell 52% to US\$2.8 million from US\$5.9 million.

#### First Half

For the first half of 2009, processed products, our largest product category, contributed 53% to Group turnover. Turnover fell 19% to US\$74.3 million from US\$91.5 million for the same reasons cited above.

Gross profit and operating profit subsequently declined by 21% and 45%, respectively.

#### BEVERAGES

#### Second Quarter

Beverages consist of juices, juice drinks and juice concentrates. This segment accounted for 43% of the Group's turnover in the second quarter of 2009, up from a 40% share in the prior year quarter.

Turnover of beverages decreased by 3% to US\$33.9 million from US\$35.0 million due to foregone sales of Great Lakes amounting to US\$5.0 million, plus the unfavourable impact of the peso depreciation on Philippine sales' translation to US dollar. Meanwhile, Fit 'n Right juice drink sales in the Philippines sustained its strong performance in the second quarter.

Gross profit grew 14% to US\$9.5 million while operating profit increased by 15% to US\$4.7 million despite the lower turnover due to better pricing, the favourable impact of peso depreciation on cost translation plus the foregone operating losses of Great Lakes which amounted to US\$0.2 million in the second guarter of 2008.

#### First Half

This segment accounted for 44% of the Group's turnover in the first half of 2009. Turnover for this segment declined by 8% to US\$61.0 million from US\$66.0 million due to foregone Great Lakes sales of US\$11.2 million. Stripping this out, beverage sales would have been up by 11% in the first half of 2009.

Gross profit and operating profit improved by 13% and 24%, respectively, despite the lower turnover due to the favourable impact of the peso depreciation on cost translation plus the foregone operating losses of Great Lakes which amounted to US\$0.7 million in the first half of 2008.

#### NON-PROCESSED

#### Second Quarter

Accounting for 3% of the Group's turnover in the second quarter of 2009, non-processed products consist mainly of fresh pineapples and the non-core cattle business - both sold only in Asia Pacific. The cattle operation helps in the disposal of pineapple pulp, a residue of pineapple processing which is fed to the animals.

Turnover of this segment grew 22% to US\$2.4 million from US\$2.0 million due to the strong sales of fresh pineapples which offset declines in cattle sales.

Gross profit more than doubled to US\$1.0 million while operating profit almost tripled to US\$1.0 million with the higher volume and prices of fresh pineapple, and some favourable IAS 41 adjustments.

#### First Half

Non processed products accounted for 3% of the Group's turnover in the first half of 2009. Turnover of this segment rose 38% to US\$3.9 million from US\$2.8 million due to higher volume and better prices of fresh pineapples.

Gross profit more than doubled on the back of higher turnover while operating profit soared 68% to US\$1.4 million from US\$0.8 mainly due to higher turnover and favourable IAS 41 adjustments.

The Group's net debt (cash and bank balances less borrowings) amounted to US\$109.3 million as at 30 June 2009 as compared to a net debt of only US\$54.0 million as at 30 June 2008 and US\$62.8 million as at year-end 2008, largely due to working capital requirements, particularly the inventories, and the additional capital injection into the FieldFresh joint venture.

In the cash flow, cash obtained from financing activities increased in the second quarter and first half of 2009 by US\$2.3 million and 11.1 million, respectively as a result of increased borrowing undertaken for working capital requirements of the Philippine subsidiary.
