- Explore packaging that offers more value
- Optimise pricing as appropriate in line with market conditions
- Roll out products that offer superior value proposition (i.e. Fit 'n Right, Quick $n$ Easy) to generate and retain consumer support

## For 2008

Barring any unforeseen circumstances, Management expects the Group's 2008 results to outperform those achieved in 2007

## For 2009

Management views 2009 to be challenging. Our aggressive cost cutting programs should partially mitigate any reduction in sales. Consumers will look for value-for-money offerings and we will take advantage of this trend (e.g. Quick n Easy culinary line for home cooking)
