PHILIPPINES SUPER TYPHOON UPDATE

Singapore Mainboard and Philippine Stock Exchange dual listed Del Monte Pacific Limited (Bloomberg: DELM SP, DMPL PM) wants to update the investing public that it has mobilized its affiliate Del Monte Philippines' Foundation to extend assistance to the victims of super typhoon Haiyan as part of its CSR efforts. The Company is fortunate that its pineapple plantation and manufacturing facilities located in the Southern Philippine island of Mindanao, have been spared from the wrath of the super typhoon.

The super typhoon's main path was through the Central Philippines, with sustained winds of 315 kph hitting the eastern seaboard of Central Philippines last Friday morning, 8 November 2013. Making landfall first at Guiuan, Samar, the super typhoon moved westward hitting Tacloban City, Leyte Province. It then cut a devastating path across the Visayas Islands of Central Philippines. The typhoon had minor effect on Northern and Southern Philippines.

As in similar calamities in the past, the foremost priority of the Company is to ensure its employees' and their families' safety and security. DMPL's subsidiary, Del Monte Philippines Inc. (DMPI), continues to check on its employees and their relatives especially in the hard-stricken area of Tacloban City. Based on initial reports, only DMPI's sales distributor in Tacloban City had been impacted. As a precautionary measure, DMPI stopped its Mindanao operations last Friday, but quickly resumed the following day, the 9th with no interruption in customer service. DMPI's main office, its R&D facility and its Central Distribution Warehouse, all within Metro Manila in Northern Philippines, were unaffected.

DMPI deeply commiserates with the victims of super typhoon Haiyan and will be reaching out to the local government agencies in the devastated Leyte Province, in providing meaningful assistance as it has done for the Bohol earthquake victims last month.

DMPL, a leading pineapple manufacturer and exporter, has a long tradition of helping the community not only during good times but more significantly during emergencies and calamities. It has sent teams on rescue and relief operations in the aftermath of a major earthquake that hit Northern Luzon and Baguio City (1990), and during the deadly flashfloods in Ormoc (1991), Camiguin (2003), Marikina (2009), Misamis Oriental (2010), Cagayan de Oro (2011), and Metro Manila (2012).
