Note to Editors: Del Monte Pacific Limited ("DMPL" or the "Group") acquired US-based Del Monte Foods, Inc ("DMFI") on 18 February 2014 and aligned its financial year with that of DMFI whose financial year runs from May to April. The Group had previously informed its shareholders and the media that it would incur acquisition-related expenses (including purchase accounting requirements) and non-recurring expenses, which would impact the bottom-line when reporting quarterly and full year results for the financial year May 2014 to April 2015. In excluding these expenses, the underlying business performed well with sales, EBITDA and operating income greater than prior year resulting in a much stronger cash flow position for the Group. For the next financial year, May 2015 to April 2016, the Group does not expect to incur any significant expenses relating to the acquisition nor the transition.

#### 4Q FY2015 Highlights

- Achieved sales of US\$528m, with US\$423m contributed by Del Monte Foods, Inc (DMFI)
- Sales of DMFI grew by 7% versus year ago (pro-forma same quarter basis)
- Sales of Del Monte in the Philippines and S&W in Asia Pacific rose more than 50%
- Realised Group EBITDA of US\$22m and operating income of US\$7.5m, but recorded net loss of US\$14.1m primarily due to non-recurring expenses

#### FY2015 Highlights

- Sales of US\$2.2bn, much higher than prior year, with US\$1.7bn contributed by DMFI
- Realised Group EBITDA, operating income and net income of US\$156m, US\$44m and
  US\$25m, respectively, before acquisition and non-recurring expenses of US\$63m net,
  primarily due to purchase accounting inventory step-up and new Enterprise Resource
  Planning (ERP) implementation
- The Group recorded a net loss of US\$38m after acquisition and non-recurring expenses

Singapore/Manila, 29 June 2015 – Singapore Mainboard and Philippine Stock Exchange dual listed Del Monte Pacific Limited ("DMPL" or the "Group"; Bloomberg: DELM SP, DMPL PM) reported today its results for the fourth quarter and FY2015 ending April 2015.

The Group achieved sales of US\$528.2 million for the fourth quarter of FY2015, up by US\$164.2 million or 45% over the prior year period, with DMFI generating US\$423.4 million of sales. From the closing of the acquisition on 18 February 2014 to the end of April 2014, DMFI contributed US\$293.4

million. Using pro-forma full quarter basis (i.e. from 1 February to end April 2014) and including DMFI's recently acquired Sager Creek Vegetable Company's vegetable business ("Sager Creek"), DMFI's sales grew by 7%.

On 11 March 2015, DMFI acquired Sager Creek, a producer of specialty vegetables for the foodservice and retail markets headquartered in Siloam Springs, Arkansas, providing it access to new customers and new retail product offerings and the opportunity to expand on Sager Creek's foodservice business platform, while driving significant operating synergies in its network of vegetable production facilities.

Meanwhile, DMPL's base business performed strongly in the fourth quarter. Its branded business in Asia (comprising of Del Monte in the Philippines and the Indian subcontinent, as well as S&W in Asia and the Middle East), and export sales globally, generated sales of US\$121.7 million, significantly higher by 54%. DMPL's base business achieved a net profit of US\$5.6 million before acquisition-related interest expenses and non-recurring expenses, a turnaround from prior period's loss of US\$9.4 million.

The Philippine market finished strong with double-digit growth across all key measures, sustaining gains from consumption-building initiatives across categories, with broader product distribution and superior in-store presence. The S&W branded business in Asia and the Middle East also generated robust sales from both the fresh and packaged segments.

The Group incurred a net loss of US\$14.1 million in the fourth quarter primarily due to non-recurring expenses amounting to US\$8.9 million, after tax:

- Write off of Venezuela of US\$4.1 million In March 2015, DMFI wrote off its assets and its
  remaining net investment in the Venezuelan business amid unstable economic conditions
  and additional currency devaluation. DMFI deconsolidated Venezuela starting March 2015
  and will not be reporting this business going forward unless it receives a cash distribution.
- ERP implementation of US\$5.4 million DMFI migrated its ERP to SAP in January 2015, raising its processes and systems to global standards with higher efficiencies. Its parent DMPL also uses the same ERP.

#### An offsetting net gain of US\$0.6 million from other items

The Group's cash flow from operations in the fourth quarter was US\$189.5 million, significantly higher than the US\$51.4 million in the prior year period. DMFI's Asset-Backed Loan (ABL), its revolving working capital facility, has been reduced to US\$99 million as of April 2015 from US\$109m as of April 2014. Without the US\$75 million payment for the Sager Creek acquisition out of this credit facility and the investment in the new ERP, the debt reduction would have been much higher.

Approximately US\$150 million of short-term bridge financing has been repaid by DMPL using the proceeds from the oversubscribed Rights Issue in March 2015. Meanwhile, US\$350 million of short-term bridge financing has been extended for up to two years.

For the fiscal year 2015, the Group generated sales of US\$2.2 billion, up from US\$743.3 million in 2014 due to the consolidation of DMFI since 18 February 2014. DMFI generated sales of US\$1.7 billion in 2015, 5% higher on a pro-forma same period basis.

"A key accomplishment was the growth of our market share across all key retail segments by reverting back to competitive pricing levels, reintroducing the well recognised classic Del Monte label and reinstating trade support levels. We also strengthened our partnership with key retailers through investments in effective marketing and trade promotion," said Mr Nils Lommerin, Chief Executive Officer of Del Monte Foods, Inc. "Having transitioned off the Transition Service Agreement or TSA with the seller in a substantially accelerated timeline was also a significant achievement for the Company, as we had to ensure that our systems and processes were ready once the TSA ended. We are on track to achieving significant cost improvements."

He also added, "We have made substantial progress developing strategically compelling growth initiatives across both retail and non-retail channels, including the acquisition of Sager Creek which is expected to provide significant operating synergies and a platform to accelerate growth in the foodservice and new vegetable segments. Building on the momentum in FY2015, we expect a strong finish in FY2016."

Meanwhile, sales for Del Monte in the Philippines and S&W in Asia and the Middle East were up strongly by 19% and 17%, respectively, in FY2015.

The Group generated an EBITDA of US\$95.7 million and incurred a net loss of US\$38.0 million for the financial year 2015 mainly due to acquisition-related and non-recurring expenses worth US\$62.6 million, after tax:

- Inventory step-up of US\$24.6 million Purchase accounting standards required a restatement to fair market values of the assets which formed part of the acquisition. This had a corresponding impact on DMFI's costs, primarily due to an upward revaluation of inventory which corresponded to a higher cost of goods sold. This was a carryover from the Transition Period of January to April 2014 as not all the inventory at the point of acquisition had been sold during that period. The inventory step up had no cash flow impact. Moreover, the inventory affected by this carryover was sold in FY2015 so there will no longer be any impact in FY2016.
- Bridge loans' interest expense of US\$25.3 million US\$150 million of the bridge loans had already been paid down in March 2015
- Write off of Venezuela of US\$4.1 million, as discussed earlier
- ERP implementation of US\$9.1 million, as discussed earlier
- An offsetting net gain of US\$0.5 million from other items

Before acquisition-related and other non-recurring expenses, the Group recorded an EBITDA of US\$156.1 million and a net income of US\$24.5 million for fiscal year 2015.

For the next financial year, from May 2015 to April 2016, the Group does not expect to incur any significant expenses relating to the acquisition nor the transition.

The Group's cash flow from operations for the full year was US\$231.5 million, more than double that of prior year's US\$105.4 million.

"Fiscal year 2015 was a year of transition, integration, and strengthening the core business. We successfully laid a solid foundation from which we will execute our growth plans in the coming year. Without the acquisition and non-recurring expenses, we look forward to a sustained momentum and a return to profitability for the Group in fiscal year 2016," said Mr Joselito D Campos, Jr, CEO and Managing Director of DMPL.

DMFI's back office functions were outsourced to a global service provider in the Philippines in February 2015. These cost saving measures are expected to improve the Group's operating margin in FY2016 and beyond.

- DMPL changed its financial-year end to 30 April from 31 December to align with that of its US subsidiary, Del Monte Foods, Inc (DMFI). The fourth quarter of the Company is now 1 February to 30 April.
- DMFI's financial results have been consolidated in DMPL's financials since the acquisition was made on 18 February 2014.
- 3. As such, DMPL's fourth quarter FY2014 financial results include that of DMFI for 18 February-30 April 2014, while fourth quarter FY2015 includes DMFI's results for 1 February-30 April 2015, a difference of 17 days.
- 4. DMFI's financial statements are based on US GAAP, while DMPL's are based on IFRS. DMFI's financial statements were converted to IFRS for consolidation purposes.
- DMPL's effective stake in DMFI is 89.4%, hence the non controlling interest line (NCI) in the P&L. Net income is net of NCI.
- 6. DMPL had previously informed its shareholders and the media that it would incur acquisition-related expenses (including purchase accounting requirements) and non-recurring expenses, which would impact the bottom-line when reporting quarterly and full year results for the financial year May 2014 to April 2015. In excluding these expenses, the underlying business performed well with sales, EBITDA and operating income greater than prior year resulting in a much stronger cash flow position for the Group. For the next financial year, May 2015 to April 2016, the Group does not expect to incur any significant expenses relating to the acquisition nor the transition.

### REVIEW OF OPERATING PERFORMANCE

#### Fourth Quarter

The Group achieved sales of US\$528.2 million for the fourth quarter of FY2015, up by US\$164.2 million or 45% over the prior year period, with DMFI generating US\$423.4 million of sales. From the closing of the acquisition on 18 February 2014 to the end of April 2014, DMFI contributed US\$293.4 million. Using pro-forma full quarter basis (i.e. from 1 February to end April 2014) and including DMFI's recently acquired Sager Creek Vegetable Company's vegetable business ("Sager Creek"), DMFI's sales grew by 7%.

On 11 March 2015, DMFI acquired Sager Creek, a producer of specialty vegetables for the foodservice and retail markets headquartered in Siloam Springs, Arkansas, providing it access to new customers and new retail product offerings and the opportunity to expand on Sager Creek's foodservice business platform, while driving significant operating synergies in its network of vegetable production facilities.

Meanwhile, DMPL's base business performed strongly in the fourth quarter. Its branded business in Asia (comprising of Del Monte in the Philippines and the Indian subcontinent, as well as S&W in Asia and the Middle East), and export sales globally, generated sales of US\$121.7 million, significantly higher by 54%. DMPL's base business achieved a net profit of US\$5.6 million before acquisition-related interest expenses and non-recurring expenses, a turnaround from prior period's loss of US\$9.4 million.

The Philippine market finished strong with double-digit growth across all key measures, sustaining gains from consumption-building initiatives across categories, with broader product distribution and superior in-store presence. The S&W branded business in Asia and the Middle East also generated robust sales from both the fresh and packaged segments.

DMPL's share of loss in the FieldFresh joint venture in India was lower at US\$0.5 million from US\$0.7 million in the prior year period.

The Group incurred a net loss of US\$14.1 million in the fourth quarter primarily due to non-recurring expenses amounting to US\$8.9 million, after tax:

- Write off of Venezuela of US\$4.1 million In March 2015, DMFI wrote off its assets and its remaining net
  investment in the Venezuelan business amid unstable economic conditions and additional currency
  devaluation. DMFI deconsolidated Venezuela starting March 2015 and will not be reporting this business
  going forward unless it receives a cash distribution.
- ERP implementation of US\$5.4 million DMFI migrated its ERP to SAP in January 2015, raising its processes and systems to global standards with higher efficiencies. Its parent DMPL also uses the same ERP.
- An offsetting net gain of US\$0.6 million from other items

The Group's cash flow from operations in the fourth quarter was US\$190.1 million, significantly higher than the US\$51.4 million in the prior year period. DMFI's Asset-Backed Loan (ABL), its revolving working capital facility, has been reduced to US\$99 million as of April 2015 from US\$109m as of April 2014. Without the US\$75 million payment for the Sager Creek acquisition out of this credit facility and the investment in the new ERP, the debt reduction would have been much higher.

Approximately US\$150 million of short-term bridge financing has been repaid by DMPL using the proceeds from the oversubscribed Rights Issue in March 2015. Meanwhile, US\$350 million of short-term bridge financing has been extended for up to two years.

#### Full year ended 30 April 2015

For the fiscal year 2015, the Group generated sales of US\$2.2 billion, up from US\$743.3 million in 2014 due to the consolidation of DMFI since 18 February 2014. DMFI generated sales of US\$1.7 billion in 2015, 5% higher on a pro-forma same period basis.

A key accomplishment was the growth of DMFI's market share across all key retail segments by reverting back to competitive pricing levels, reintroducing the well recognised classic Del Monte label and reinstating trade support levels. DMFI also strengthened its partnership with key retailers through investments in effective marketing and trade promotion. Having transitioned off the Transition Service Agreement or TSA with the seller in a substantially accelerated timeline was also a significant achievement for the Company, as it had to ensure that our systems and processes were ready once the TSA ended. DMFI is on track to achieving significant cost improvements.

DMFI has made substantial progress developing strategically compelling growth initiatives across both retail and non-retail channels, including the acquisition of Sager Creek which is expected to provide significant operating synergies and a platform to accelerate growth in the foodservice and new vegetable segments. Building on the momentum in FY2015, DMFI expects a strong finish in FY2016.

Meanwhile, sales for Del Monte in the Philippines and S&W in Asia and the Middle East were up strongly by 19% and 17%, respectively, in FY2015.

DMPL's share of loss in the FieldFresh joint venture in India was significantly lower at US\$2.4 million from US\$4.3 million in the prior year period.

The Group generated an EBITDA of US\$95.7 million and incurred a net loss of US\$38.0 million for the financial year 2015 mainly due to acquisition-related and non-recurring expenses worth US\$62.6 million, after tax:

- Inventory step-up of US\$24.6 million Purchase accounting standards required a restatement to fair market values of the assets which formed part of the acquisition. This had a corresponding impact on DMFI's costs, primarily due to an upward revaluation of inventory which corresponded to a higher cost of goods sold. This was a carryover from the Transition Period of January to April 2014 as not all the inventory at the point of acquisition had been sold during that period. The inventory step up had no cash flow impact. Moreover, the inventory affected by this carryover was sold in FY2015 so there will no longer be any impact in FY2016.
- Bridge loans' interest expense of US\$25.3 million US\$150 million of the bridge loans had already been paid down in March 2015
- Write off of Venezuela of US\$4.1 million, as discussed earlier
- ERP implementation of US\$9.1 million, as discussed earlier
- An offsetting net gain of US\$0.5 million from other items

Before acquisition-related and other non-recurring expenses, the Group recorded an EBITDA of US\$156.1 million and a net income of US\$24.5 million for fiscal year 2015.

For the next financial year, from May 2015 to April 2016, the Group does not expect to incur any significant expenses relating to the acquisition nor the transition.

The Group's cash flow from operations for the full year was US\$232.2 million, more than double that of prior year's US\$105.4 million.

#### VARIANCE FROM PROSPECT STATEMENT

The results of the full year period were in line with earlier guidance that the recurring earnings (before acquisition related expenses and non-recurring expenses) would be higher than prior year period.

#### **BUSINESS OUTLOOK**

Fiscal year 2015 was a year of transition, integration, and strengthening the core business. DMPL successfully laid a solid foundation from which it will execute its growth plans in the coming year. Without the acquisition and non-recurring expenses, DMPL looks forward to a sustained momentum and a return to profitability in fiscal year 2016.

Meanwhile, DMFI has made substantial progress developing strategically compelling growth initiatives across both retail and non-retail channels, including the acquisition of Sager Creek which is expected to provide significant operating synergies and a platform to accelerate growth in the foodservice and new vegetable segments. Building on the momentum in FY2015, DMFI expects a strong finish in FY2016.

DMFI's back office functions were outsourced to a global service provider in the Philippines in February 2015. These cost saving measures are expected to improve the Group's operating margin in FY2016 and beyond.

### Notes to the 4Q FY2015 Results

- DMPL changed its financial-year end to 30 April from 31 December to align with that of its US subsidiary, Del Monte Foods, Inc (DMFI). The fourth quarter of the Company is now 1 February to 30 April.
- 2. DMFI's financial results have been consolidated in DMPL's financials since the acquisition was made on 18 February 2014.
- 3. As such, DMPL's fourth quarter FY2014 financial results include that of DMFI for 18 February-30 April 2014, while fourth quarter FY2015 includes DMFI's results for 1 February-30 April 2015, a difference of 17 days.
- 4. DMFI's financial statements are based on US GAAP, while DMPL's are based on IFRS. DMFI's financial statements are converted to IFRS for consolidation purposes.
- 5. DMPL's effective stake in DMFI is 89.4%, hence the non controlling interest line (NCI) in the P&L. Net income is net of NCI.
- 6. DMPL had previously informed its shareholders and the media that it would incur acquisition-related expenses (including purchase accounting requirements) and non-recurring expenses, which would impact the bottom-line when reporting quarterly and full year results for the financial year May 2014 to April 2015. In excluding these expenses, the underlying business performed well with sales, EBITDA and operating income greater than prior year resulting in a much stronger cash flow position for the Group. For the next financial year, May 2015 to April 2016, the Group does not expect to incur any significant expenses relating to the acquisition nor the transition.

## DMPL 4Q FY2015 Results Summary

- Sales of Del Monte in the Philippines and S&W in Asia Pacific rose more than 50%
- Realised Group EBITDA of US\$22m and operating income of US\$7.5m, but recorded net loss of US\$14.1m primarily due to non-recurring expenses
- Cash flow from operations was US\$189.5m, significantly higher than the US\$51.4m in the prior year quarter

## DMPL 4Q FY2015 Non-Recurring Expenses

<sup>&</sup>lt;sup>1</sup>Net of tax and net of DMPL's non-controlling interest in DMFI of 10.6% where applicable.

DMFI deconsolidated Venezuela starting March 2015 and will not be reporting this business going forward unless it receives a cash distribution.

<sup>4</sup>Others included a gain resulting from DMFI's Sager Creek bargain purchase (negative goodwill). Others also included acquisition-related interest expenses of US\$5.4m for bottom line but not for EBITDA impact.

<sup>&</sup>lt;sup>2</sup>DMFI migrated its ERP to SAP in January 2015, raising its processes and systems to global standards with higher efficiencies. Its parent DMPL also uses the same ERP.

<sup>&</sup>lt;sup>3</sup>In March 2015, DMFI wrote off its assets and its remaining net investment in the Venezuelan business amid unstable economic conditions and additional currency devaluation.

### **DMPL FY2015 Results Summary**

- Achieved sales of US\$2.2bn, much higher than prior year, with US\$1.7bn contributed by DMFI
- Sales of DMFI grew by 5% versus year ago (proforma same period basis)
- Sales of Del Monte in the Philippines rose 19%
- Sales of S&W in Asia and the Middle East rose 17%
- Realised Group EBITDA, operating income and net income of US\$156m, US\$44m and US\$25m, respectively, before acquisition and non-recurring expenses of US\$63m net, primarily due to purchase accounting inventory step-up and new ERP implementation
- Recorded a net loss of US\$38m after acquisition and non-recurring expenses
- Cash flow from operations was US\$231.5m, more than double that of prior year's US\$105.4m

#### DMPL FY FY2015 Non-Recurring Expenses

DMPL generated an EBITDA of US\$95.7m and incurred a net loss of US\$38.0m mainly due to acquisition-related and non-recurring expenses worth US\$62.6m, after tax

|  | EBITDA impact | Bottom line impact <sup>1</sup> |

| 1. Inventory step-up <sup>2</sup>          | US\$44.3m     | US\$24.6m                       |

<sup>&</sup>lt;sup>1</sup>Net of tax and net of DMPL's non-controlling interest in DMFI of 10.6% where applicable.

<sup>&</sup>lt;sup>2</sup>Purchase accounting standards required a restatement to fair market values of the assets which formed part of the acquisition. This had a corresponding impact on DMFI's costs, primarily due to an upward revaluation of inventory which corresponded to a higher cost of goods sold. This was a carryover from the Transition Period of January to April 2014 as not all the inventory at the point of acquisition had been sold during that period. The inventory step up had no cash flow impact. Moreover, the inventory affected by this carryover was sold in FY2015 so there will no longer be any impact in FY2016.

<sup>&</sup>lt;sup>3 & 4</sup>Same as per slide 6.

<sup>&</sup>lt;sup>5</sup>Others included a gain resulting from DMFI's Sager Creek bargain purchase (negative goodwill). Others also included acquisition-related interest expenses of US\$25.3m for bottom line but not for EBITDA impact. US\$150m of the bridge loans had already been paid down in March 2015.

#### Outlook for FY2016

- 1. FY2015 was a year of transition, integration, and strengthening the core business. DMPL successfully laid a solid foundation from which it will execute its growth plans in the coming year.
- 2. Without the acquisition and non-recurring expenses, DMPL looks forward to a sustained momentum and a return to profitability in FY2016.
- 3. DMFI has made substantial progress developing strategically compelling growth initiatives across both retail and non-retail channels, including the acquisition of Sager Creek which is expected to provide significant operating synergies and a platform to accelerate growth in the foodservice and new vegetable segments.
- 4. Building on the momentum in FY2015, DMFI expects a strong finish in FY2016.
- 5. DMFI's back office functions were outsourced to a global service provider in the Philippines in February 2015. These cost saving measures are expected to improve the Group's operating margin in FY2016 and beyond.
