REVIEW OF OPERATING PERFORMANCE

The Group achieved sales of US\$472.8 million for the first quarter of FY2016, up 6% over the prior year period. DMFI generated US\$373.5 million or 79% of Group sales. DMFI's sales inclusive of its recently acquired Sager Creek Vegetable Company's vegetable business ("Sager Creek") improved by 10%. Without Sager Creek, DMFI's sales grew by 2%. DMFI's sales were constrained by tight supply for green beans, and certain fruit and tomato products primarily as a result of higher than anticipated positive consumer response from the corrective marketing actions implemented earlier on such as reverting to the classic Del Monte label in October 2014.

DMFI market share across core retail segments maintained their strength as DMFI further developed partnerships with key retailers through investments in effective marketing and innovation.

Meanwhile, DMPL ex-DMFI sales were impacted by reduced pineapple supply as a result of the El Niño weather pattern which led to decreased exports of packaged pineapple both under the S&W brand and non-branded business. DMPL's base business generated sales of US\$109.9 million (inclusive of the US\$10.6 million sales by DMPL to DMFI which were netted out during consolidation), lower by 9%.

However, the Philippine market which sells not just packaged pineapple but also packaged mixed fruit, beverage and culinary products, continued to grow by 7%, driven primarily by increased demand for packaged mixed fruit and beverage. Sales of juices in Tetra format were up versus the prior year period.

Moreover, sales of the S&W branded business in Asia and the Middle East rose 10% in the first quarter mainly due to the strong performance of the fresh segment which offset weakness in the packaged segment as a result of the constrained supply.

DMPL's share of loss in the FieldFresh joint venture in India was lower at US\$0.4 million from US\$0.6 million in the prior year period due to the robust performance of Del Monte packaged business, primarily led by improved volume in canned juice, olive oil and pasta. Higher sales and production efficiencies resulted to FieldFresh generating a positive EBITDA for the quarter.

The DMPL Group achieved an operating profit of US\$0.2 million, a turnaround from the US\$12.1 million operating loss last year burdened by non-recurring and acquisition-related expenses. Despite lower sales, DMPL ex-DMFI generated higher gross margin due to tight cost management.

The El Niño weather pattern is not expected to abate in the second half of the fiscal year which will continue to impact the Group's pineapple supply. In light of this, the Group has embarked on mitigating measures in the field such as continuous enforcement of land preparation activities and reinforcing root health, among others. The Group will continue to closely monitor the situation and execute mitigating plans accordingly. Meanwhile, the Group will continue its proactive cost management across all other areas to make up for higher pineapple costs resulting from El Niño.

DMFI generated higher gross margin and higher gross profit in the first quarter, but due to this quarter being its seasonally slowest quarter accounting for only 18-20% of full year sales as well as SAP expenses, it incurred an operating loss. DMFI is expected to generate an operating profit and a net profit for FY2016.

Aside from the seasonal sales contribution, cash flow for the first quarter is lower due to the seasonal production cycle where this quarter's working capital builds up through the end of the second quarter in October. Past the production peak in October, cash flows are expected to improve in the seasonally stronger second semester with peak sales around Thanksgiving and Christmas, as well as Easter in the last quarter ending April.

The DMPL Group incurred a lower net loss of US\$12.0 million for the quarter, versus prior year period's loss of US\$21.9 million. This quarter's loss of US\$12.0 million included US\$1.8 million expenses from the SAP implementation at DMFI and the Sager Creek acquisition.

The Group's cash outflow from operations in the first quarter was US\$145.9 million driven by inventory build-up in preparation for the seasonally stronger second semester.

Approximately US\$150 million of short-term bridge financing has been repaid by DMPL using the proceeds from the oversubscribed Rights Issue in March 2015. Meanwhile, US\$350 million of short-term bridge financing has been extended for up to two years.

VARIANCE FROM PROSPECT STATEMENT

The first quarter results showed a net loss but the Group expects to generate net profit for the balance of the year. It is on track to achieving a net profit for the full year which is in line with earlier guidance.

BUSINESS OUTLOOK

In the coming quarters, the Group's US subsidiary will continue to deliver increasingly differentiated value, prioritise promotion in critical consumption windows, pursue meaningful category innovation, and unlock growth potential across brands, channels and geographies in its core business in packaged vegetable, fruit, tomato and broth. It will also accelerate foodservice growth and expand its retail portfolio through the Sager Creek specialty vegetable business, and continue to grow the ethnic Asian market near term.

The Group will continue to expand its existing branded business in Asia, through the Del Monte brand in the Philippines, where it is a dominant market leader. S&W, both packaged and fresh, will gain more traction as it leverages its distribution expansion in Asia and the Middle East, while its affiliate in India will continue to generate higher sales and sustain its positive EBITDA.

The Group has successfully laid a solid foundation from which it will execute its growth plans in the coming quarters. Barring unforeseen circumstances, it expects to return to profitability in FY2016 which will generate more free cash flow to allow it to deleverage further.

REVIEW OF TURNOVER, GROSS PROFIT AND OPERATING PROFIT

Reported under the Americas segment are sales and profit on sales in North and South America, and Canada. Majority of this segment's sales are principally sold under the Del Monte brand but also under the Contadina, S&W, College Inn and other brands. This segment also includes sales of private label food products. Sales in the Americas are distributed across the United States, in all channels serving retail markets, as well as to the US military, certain export markets, the food service industry and other food processors.

Sales in the Americas grew by 9% to US\$373.6 million due to higher packaged fruit and vegetable (F&V) sales arising from the consolidation of DMFI's recently acquired Sager Creek Vegetable Company, as well as higher culinary sales.

Ex-Sager Creek, DMFI's packaged F&V business faced a tight supply for green beans, and certain fruit and tomato products primarily as a result of higher than anticipated positive consumer response from the corrective marketing actions implemented earlier on such as reverting to the classic Del Monte label in October 2014.

Beverage sales were down on lower pineapple juice concentrate exports due to reduced pineapple supply as a result of the El Niño weather pattern. The others category showed a steep decline as DMFI deconsolidated its Venezuela subsidiary in March 2015 and wrote off its assets and its remaining net investment in the Venezuelan business amid unstable economic conditions and additional currency devaluation.

DMFI generated higher gross profit in the first quarter, but due to this quarter being its seasonally slowest quarter accounting for only 18-20% of full year sales and SAP expenses, it incurred an operating loss.

Asia Pacific's sales in the first quarter decreased by 2% to US\$94.0 million from US\$95.5 million on lower packaged and fresh pineapple sales due to reduced pineapple supply as a result of the El Niño weather pattern.

The Philippine market which sells not just packaged pineapple but also packaged mixed fruit, beverage and culinary products, continued to grow by 7%, driven primarily by increased demand for packaged mixed fruit and beverage. Sales of juices in Tetra format were up versus the prior year period.

Note to Editors: Del Monte Pacific Limited ("DMPL" or the "Group") acquired US-based Del Monte Foods, Inc ("DMFI") on 18 February 2014 and aligned its financial year with that of DMFI whose financial year runs from May to April. The first quarter is the May to July period.

1Q FY2016 Highlights

- Achieved sales of US\$473m, 6% higher year on year
- Sales of Del Monte Foods in the US grew by 10%
- Sales of Del Monte in the Philippines grew by 7%
- Recorded Group EBITDA of US\$17m and narrowed net loss to US\$12m versus prior year's loss of US\$22m

Singapore/Manila, 3 September 2015 – Singapore Mainboard and Philippine Stock Exchange dual listed Del Monte Pacific Limited ("DMPL" or the "Group"; Bloomberg: DELM SP, DMPL PM) reported today its results for the first quarter ending July 2015. Its US subsidiary Del Monte Foods, Inc is identified as DMFI.

The Group achieved 6% higher sales of US\$472.8 million for the first quarter of FY2016 and narrowed the net loss to US\$12.0 million from US\$21.9 million in the same period last year. It recorded significant growth in EBITDA of US\$17.3 million and achieved a turnaround from the US\$12.1 million operating loss last year.

The net loss was attributed to DMFI's first quarter being the seasonally weakest, in addition to expenses from the SAP implementation. The El Niño weather pattern also caused reduced pineapple supply in the Group's plantation in the Philippines leading to lower exports.

DMFI generated higher sales, achieved higher gross margin and recorded a higher gross profit, but due to seasonality it incurred a net loss for the quarter. However, market share across core retail segments maintained their strength as DMFI further developed partnerships with key retailers through investments in effective marketing and innovation.

“Our financial performance tends to be skewed towards the second half of our fiscal year when Del Monte is the brand of choice for festive occasions. As we continue to unlock the growth potential of our products, accelerate our penetration of the food service sector and ethnic Asian market as well as enter new vegetable segments, our results will improve further,” said Nils Lommerin, CEO of DMFI.

The Group’s sales in the Philippines continued to grow by 7%, driven primarily by increased demand for packaged mixed fruit and beverage.

Sales of the S&W branded business in Asia and the Middle East rose 10% in the first quarter mainly due to the strong performance of fresh pineapple exports, which offset weakness in the packaged segment as a result of constrained supply.

DMPL’s share of loss in the FieldFresh joint venture in India was lower at US\$0.4 million from US\$0.6 million in the prior year period due to the robust performance of Del Monte packaged business, primarily led by improved volume in canned juice, olive oil and pasta.

“We have successfully laid a solid foundation from which we will execute our growth plans in the coming quarters. Barring unforeseen circumstances, we look forward to a return to profitability in FY2016, which will generate more free cash flow to allow us to deleverage further,” said Mr Joselito D Campos, Jr, Managing Director and CEO of DMPL.

Cash Flow Outlook

Aside from the seasonal sales contribution, DMFI's cash flow for 1Q is lower due to the seasonal production cycle where this quarter's working capital builds up through the end of 2Q in October.

Past the production peak in October, cash flows are expected to improve in the seasonally stronger second semester with peak sales around Thanksgiving and Christmas, as well as Easter in the last quarter ending April.

This will allow the Group to deleverage in the second semester.

Del Monte Foods USA

- DMFI's 1Q sales including Sager Creek grew by 10% to US\$373.5m
- Excluding Sager Creek, DMFI's sales grew by 2%
- Sales were constrained by tight supply as a result of higher than anticipated positive consumer response from the corrective marketing actions implemented earlier on such as reverting to the classic Del Monte label in October 2014
- Maintained the strength of market share across core retail segments as DMFI further developed partnerships with key retailers through investments in effective marketing and innovation
