

Unifly is a young, high tech company active in the drone sector. Founded by air traffic controllers and pilots, Unifly developed an Unmanned Traffic Management (UTM) system for drones according to aviation safety standards. Today, we are the leading supplier of UTM software with projects all over the world.

Our first customers include companies such as Belgocontrol, Deutsche Flugsicherung, Naviair and Austro Control. Our company is set to grow significantly over the next few years and we are therefore looking for project managers to help guide our projects in the right direction.

Project Manager

The job

Your job is to manage user-oriented development projects. You report to the Chief Operating Officer.

Your responsibilities

You are responsible for the timely execution of development and implementation of customer contracts. Once a project has been awarded, you work closely with the customer, the account manager and the development department to define a time schedule for execution. You continuously monitor progress and provide guidance for alterations when necessary. You also monitor and manage the financial and administrative aspects of the project.

Your skill set

- You have 3-5 years experience as a project manager in a high tech SaaS environment.
- Affinity with aviation is a plus.
- You are prepared to engage with high level counterparts in an international context.
- Willingness to travel is a must.

We offer

- A highly dynamic, international, high-tech environment where you have the unique opportunity to help shape the future of the company.
- A diverse and friendly team with people of all ages and experience levels.
- A learning environment where you can extend and build upon your skills and interests, as well as knowledge-sharing.
- A competitive salary.
- A cool, brand-new office located in Antwerp (Deurne Airport) with a pleasant atmosphere, a kicker table, and social activities – we love to hang out and be social! It is a flexible working environment with excellent work/life balance, including the option to work from home.
- The ability to work in a multi award-winning company, including "Scale Up of the Year", "Best Emerging Drone Company", "Most Promising Company" and "Best-in-Class"

How to apply

Want to apply? We'd be happy to receive your CV, start date and salary expectations at jobs@unifly.aero
