

Meet the platform for the next generation of procurement leaders and their organizations

SOLUTION 1: ENRICH

Know your suppliers

Power your vendor master with machine learning and a unified, dynamic view of every supplier

- Gain instant access to your entire supplier master with deep insight into supplier capabilities and relationships with your organization
- Filter suppliers by spend, relevance, diversity status and geography
- Get better insights as usage grows, generating smarter, faster and more valuable analytics
- Access updated contact info for faster response time

Centralize & consolidate supplier data

Finally get a single source of truth for your organization with dynamic access to your ever-evolving supplier base

- Unify your team's activity and the data they leverage
- See spend history for each supplier
- Gain compliance to your preferred supplier program criteria
- Centralize all relevant and useful supplier documents in one place, accessible to the entire team

"Tealbook ensures that we are always considering the right suppliers while enabling us to move quickly and stay agile."

Dana Small, Global Strategic Sourcing Manager, BioMarin

Enable stakeholder participation

Include and empower stakeholders by putting all supplier data at their fingertips

- Follow, like, comment and rate suppliers, and share with internal stakeholders
- Communicate and drive collaboration with peers about supplier selection
- Access unique insights from internal peers

Tealbook simplifies and accelerates partnerships between procurement, their organizations and suppliers.
