

Meet the platform for the next generation of procurement leaders and their organizations

SOLUTION 2: EXPLORE

Expand your supplier base

Leverage the power of machine learning to dramatically reduce cycle time in finding and qualifying new suppliers

- One-click search for similar suppliers filtered by keywords, geography and certification type
- Increase competitiveness by enabling teams to confidently know they are always considering the strongest possible options
- Get better insights as usage grows, generating smarter, faster and more valuable analytics
- Positively challenge internal stakeholders with meaningful data that lets them think outside of the status quo

Leverage community knowledge

Benefit from trusted community-based knowledge by industry peers when viewing potential new suppliers

- See how your peers have endorsed suppliers based on capabilities, how they trend in your community and connections without sharing your data
- Be connected to industry peers for referrals and recommendations

Our clients drive savings of up to **90%** in cycle time when finding and qualifying new suppliers

Seamlessly collaborate

Easily work with your peers in qualifying suppliers

- Instantly build and save a list of new, competitive and diverse suppliers with a leading edge vetting tool
- Invite your peers to collaborate on building flexible business requirements, invite suppliers to respond and gain insight into team activities with an automated dashboard
- Enable your stakeholders to initiate the process in collaboration with procurement teams
- Leverage previously supplier searches to accelerate future business requirements
