

Meet the platform for the next generation of procurement leaders and their organizations

SOLUTION 3: IMPACT

Access accurate supplier diversity data

Modernize supplier diversity programs with the power of technology to transform the accuracy of diversity spend

- Effortlessly generate accurate diversity spend reporting to set baselines, meet and set new corporate goals
- View your existing small and diverse suppliers with one click, as well as their certifications and expiry dates
- Uncover suppliers that may qualify as small and diverse that you are already working with and collaborate to get them certified.
- Track individual and team efforts to set goals and manage accountability
- Improve Tier 1 diversity suppliers when they upload their vendor masters

Discover new diverse suppliers

Expand efforts with suppliers who meet your diversity requirements

- Find and include small and diverse supplier options across every category in the organization, and track results
- Build and save lists of qualified small and diverse suppliers, and share with your team
- Access community-based sharing of trusted small and diverse suppliers

Our clients drive increases of up to **150%** in the accuracy of their small and diverse spend
