

AX Anywhere Technical Training

To-Increase Product:	AX Anywhere Online Framework
Technology:	Microsoft Dynamics AX2012 R3
Length:	2 days
Language:	English
Audience:	Microsoft Dynamics AX Developers and Technical (Pre-Sales) Consultants
Type:	Course
Price per trainee: <i>(excluding travel and expenses)</i>	EUR 798, USD 998 or 2 vouchers

Purpose of this training:

The trainer will discuss in detail all capabilities of the AX Anywhere Online Framework. Which allows partners to make anything in AX online available on a mobile device.

After the training the student will be able to install, maintain, create new or modify existing AX Anywhere Online Framework solutions.

Agenda

For your convenience, the course agenda for this Training Agenda is presented below.

AX Anywhere Solutions - Functional Introduction (presentation, hands-on exercises)

- AX Anywhere Sales
- AX Anywhere Logistics
- AX Anywhere Production
- AX Anywhere Retail

AX Anywhere Framework - Development Training (presentation, hands-on exercises)

- Overview of the Framework
- The designer
- Customizing the application and form classes
- The transaction log
- Manipulating the Framework through code

AX Anywhere Solutions - Development Training (presentation, hands-on exercises)

- How are the AX Anywhere Solutions configured/developed
- Basic design patterns (how to extend/customize our solution to your project)

Prerequisites of knowledge:

- MS Dynamics AX2009/AX2012 knowledge of:
 - Basic knowledge of X++
 - Able to read X++ code
 - Copy/paste modifications of methods
 - Understand basic SQL queries, such as where clauses
 - AOT navigation
 - Basic functional knowledge of the following Ax components

- Supply Chain Management
- Warehouse Management System (R2)
- Manufacturing

Requirements of this training:

- Each trainee will require a laptop/PC, with the following minimum requirements: 60GB free disk space available on an internal disc drive, 4GB RAM available memory, Oracle VM VirtualBox installed.
- The AX Anywhere Demo VPC **must be downloaded and installed in advance** for each trainee (please check the VM download instructions). Tip: After starting the VM image, you may need to adapt your keyboard configuration for non-US keyboard layouts.
- Please note that this VPC is about 60 gigabytes in size and downloading and unzipping it will take considerable time.
