

## Lifecycle Management Product Training

To-Increase Product:	Lifecycle Management
Part of To-Increase Solution:	To-Increase Vertical Solutions for Microsoft Dynamics NAV
Technology:	Microsoft Dynamics NAV 2017
Length:	1 day
Language:	English
Type:	Course
Delivery Method:	Instructor-led
Price per trainee: <i>(excluding travel and expenses)</i>	EUR 399, USD 499 or 1 voucher p.p.

### Purpose of this training:

Make the partner's functional consultants familiar with the capabilities of Lifecycle Management consisting of the Solution Centre based Lifecycle Studio and the applications build on top of that: Item – and Document Lifecycle Management. The training will be delivered through 1 full day classroom session or 2 2 hour sessions on-line during which the functionality is explained and demonstrated. Based on that the consultants are expected to complete the assignments. The assignments will be reviewed and discussed in the session.

### Agenda

#### Day 1 | Lifecycle Management

##### *1.1 Lifecycle Studio and Item Lifecycle Management*

Lifecycle Studio is the framework included in Solution Centre and holds the basic functionality for the Lifecycles. Item Lifecycle Management is an application build on top of that to manage the life of an item by defining states and state transitions with conditions and action handlers. A separate setting table will set which NAV functionality can use the item in which state.

##### *1.2 Document Lifecycle Management*

Build on Lifecycle Studio Document Lifecycle Management manages the life of sales -, purchase – and warehouse documents. In a separate settings table the various document functions can be set to replace the actions from the ribbons.

### Prerequisites

1. Knowledge:
  - a. Microsoft Dynamics NAV 2017
2. Software on your pc:
  - a. Microsoft Dynamics NAV 2017, SQL Server (Express) 2014.
