Price per trainee: *(excluding travel and expenses)*	EUR 198, USD 298, 0.5 voucher

Purpose of this training:
The trainer will provide the overview of RapidValue Technical deployment concepts and elaborate on basic steps required for successful technical deployment of RapidValue BPM suite. After the training the student understands the RapidValue concept and is aware of how to install the software and licenses for RapidValue, is aware of how the various help features in MD 365 work and is also able to enable and view the predefined task guides for various features, and also to enable Getting Started guides.

Agenda
For your convenience, the course agenda for this RapidValue product training is presented below.

Topics session 1
- Introduction to RapidValue BPM suite Technical deployment concepts
- Installation of RapidValue in MD 365 from LCS - Asset library, Solution packages and Software Deployable packages.
- Licensing of RapidValue in MD 365 – BPM suite mode and Preview mode
- Enabling and viewing "Task Guides"
- Enabling and viewing "Getting Started " guide
- How to enhance a partner and/or customer specific Help information
- Demo
- Q&A

Prerequisites of knowledge:
Basic knowledge Dynamics 365 and Microsoft LCS (Lifecycle Services) is expected. Experience from AX or other ERP implementations is useful. Knowledge of BPMN or similar business process modeling languages is also very useful, but not required.

Prerequisites of software on your pc:
The RapidValue training is delivered online and demonstration including exercises by the trainer are carried out on a central RapidValue training server hosted by To-Increase. Skype for Business 2015 or GotoMeeting are used for screen sharing and audio, depending on the size and preferences of the training group.
