

ADM Advanced Project Management I Training

To-Increase Product:	Advanced Project Management I
Part of To-Increase Solution:	Advanced Project Management
Technology:	Microsoft Dynamics AX 2012 CU7
Length:	2*0.5 day excluding hands-on lab + 1 hour Q&A session 2 weeks after the training
Language:	English
Type:	Course
Price per trainee: <i>(excluding travel and expenses)</i>	EUR 399, USD 499 or 1 voucher

Purpose of this training:

During the Advanced Project Management I Training course, the student will learn all about Advanced Project Management I. This training comprises a theoretical part and a hands-on lab. The theoretical part will be explained during the online sessions, the hands-on lab must be done outside of the online course. Approximately two weeks after the last online training, a Q&A session will be planned to cover the questions of the hands-on lab.

The product training is primarily for Application and Presales consultants. The goal of the training is to understand the setup and processes within the Advanced Project Management I solution.

Agenda

For your convenience, the course agenda for this Advanced Project Management I product training is presented below.

Topics

- Project Quotation
- Project Inventory
- Project Logistics
- Advanced Project Costing

Prerequisites of knowledge:

The participant is expected to have knowledge of standard AX2012 and especially on the Project management and accounting module.

Prerequisites of software:

To be able to participate in this training, it is mandatory to have access to an installation of the ADM2012 and construction demo database (virtual machine). The installation manual of this is a part of the ADM2012 demo database installation package, which can be downloaded on request.
