

To-Increase Webstore Product Training

To-Increase Product:	To-Increase Webstore
Technology	ASP.NET / Microsoft Dynamics AX2012
Length:	2*4 hours
Language:	English
Type:	Course
Price per trainee: <i>(excluding travel and expenses)</i>	EUR 399 / USD 499 / 1 VCH

Purpose of this training:

During the Webstore product training course the student will learn about the architecture of the solution, data setup and day to day tasks carried out by online marketing users and system administrators. This training comprises a theoretical part and a hands-on lab. The theoretical part will be explained during the online sessions, the hands-on lab may be done outside of the online course.

The product training is primarily for Application and Presales consultants. The goal of the training is to understand the setup and processes within Webstore.

Agenda:

- Overview of the solution
- Setup of websites and stores
- Categories and Product content
- Customers and pricing
- Sales orders and Payments
- Data synchronization
- Website Administration

Prerequisite Knowledge:

The participant is expected to have knowledge of Dynamics AX trade & Logistics.

Prerequisite Software:

To be able to participate in this training, it is mandatory to have access to a Dynamics AX system where Webstore is installed, or the demonstration VM that is available for partners.

The installation manual for this solution is available for download on request.
