

How to re-upload historical data for Løvbjerg

This guide shows you how to re-upload historical POS data for Løvbjerg.

Please contact effectmanager at support@effectmanager.com if you need to re-upload historical data for Løvbjerg.

Adding brands or products to your portfolio

If you have acquired a new brand or product, you need to contact Løvbjerg and have them send new files to the effectmanager FTP-server.

- Your Key Account Manager orders new historic POS files with all your brands or products.
- Løvbjerg can send the new files to the effectmanager FTP-server Wednesday to Friday, to make sure not to overload the system.
- Please inform effectmanager when the data will be re-uploaded to the FTP-server.
- effectmanager will follow up on the historical data sent from Løvbjerg.
- effectmanager will inform you when your historical data is read into the cube.
