How to re-upload historical data for Salling Group

This guide shows you how and why to re-upload historical POS data for Salling Group.

Please contact effectmanager at
support@effectmanager.com if you need to re-upload
historical data for Salling Group.

Adding brands or products to your portfolio

If you have acquired a new brand or product, you must have
made deliveries to Salling Group on your Supplier number
before we can order historical data for you.

Please follow the steps below
- Contact effectmanager, when you have delivered all
  products on your Supplier number to Salling Group.
- effectmanager will send you an article file from Salling
  Group and have you confirmed it contains all the products
  you need historical data on.
- effectmanager will order a re-send of historical data from
  Salling Group and follow-up on the re-upload, assuring
  your historical data is corrected in the cube.
- effectmanager will inform you when your historical data is
  read into the cube.
