# AlayaCare for Consumer Directed Care (CDC)

## Enable a truly client-focused approach to providing aged care services.

A fully integrated, end-to-end platform designed for aged care providers to remain compliant and enhance care delivery in a Consumer Directed Care (CDC) market.

**Introducing a new cloud-based software platform that allows you to:**

- Create and customize budgets, care plans and monthly statements in real time courtesy of AlayaCare's cloud and mobile budgeting tool

- Allow office staff to create rosters with the help of schedule and route optimization

- Give care workers access to client information, care plans, task lists, notes and forms all through a secure mobile app equipped with electronic visit verification

- Utilize remote monitoring technology, increasing client access to care and overall safety when your staff are not in the home

- Prepare exports & invoices for multiple funders - My Aged Care, NDIS, DVA, brokered services and private clients

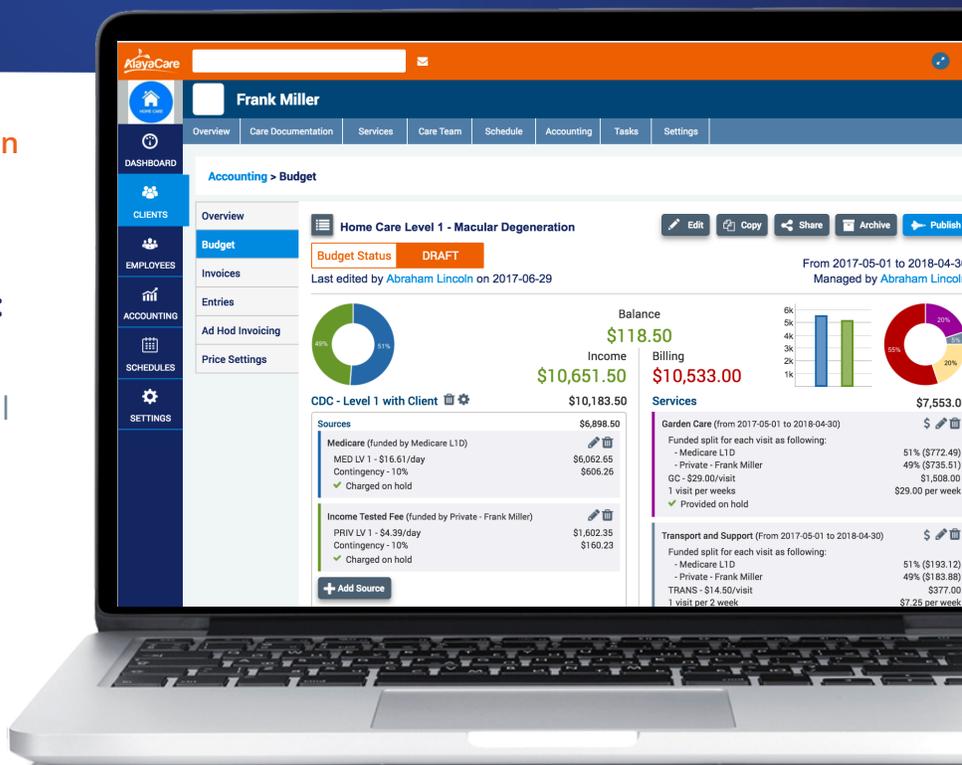

> *"Outstanding customer service is central to the way we work with our clients at Envigor.*
> *The introduction of AlayaCare to the Australian market means that the relationship we have with our clients will move to a new level of accountability and transparency."*
>
> *- CEO of Envigor, Nick Loudon*

Better Technology, Better Outcomes.

# With AlayaCare, aged care providers can:

**Increase accountability through mobile technology**

**Improve client care and satisfaction**

**Reduce unfunded visits**

**Gain competitive advantage in an ever changing market**

## The AlayaCare CDC Platform

✓ **Real-Time Visit Verification –** Instantaneous alerts to supervisors of late or missed visits

✓ **Care Package Management -** Reduce unfunded visits with alerts for shifts scheduled outside of approved funding packages

✓ **Mobility -** Create and alter service plans in real time, at the point of care

✓ **Back Office (Scheduling, Accounting, HR) -** Track and monitor multiple services and funders on a single platform

✓ **Stakeholder Portals –** Allow clients and their families to view package balances and collaborate on care plans

✓ **GPS Tracking –** Ensure field staff safety and schedule compliance

✓ **Schedule and Route Optimization –** Reduce travel premiums and compress schedules

✓ **Management Reporting –** Create ad hoc and scheduled reports through a robust data exploration tool

✓ **Integrated Telehealth –** Clinical information on vitals, fall detection, GPS location etc. streaming in real-time to the back office
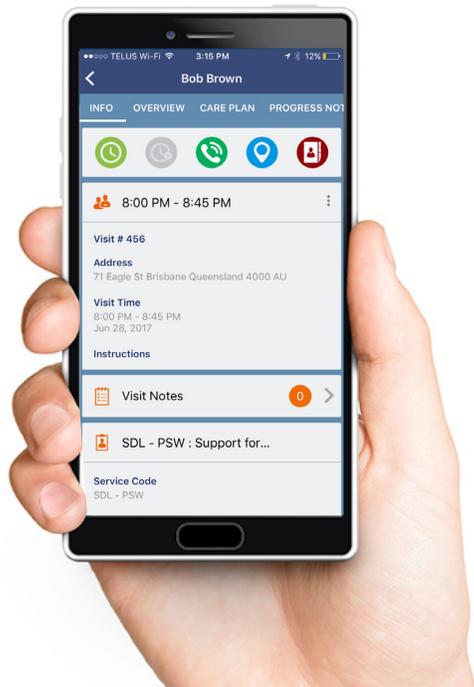

**Our end-to-end solution offers the tools necessary for care providers and clients to plan, deliver and improve care.**

AlayaCare is a provider of revolutionary cloud-based home care software. With a product spanning clinical documentation, back office functionality, client and family portals, remote patient monitoring, and mobile care worker functionality, AlayaCare offers a platform for agencies to propel towards innovation and home care of the future.
