

## AlayaCare Introduces the First Video Conferencing Purpose-Built for Home & Community Care

### Virtual Visits Keeping Care Providers Connected to Clients Safely, Remotely

AlayaCare is proud to engineer an industry-first solution: video conferencing custom built for the needs of home and community care organizations. This technology connects clients to their care providers and to back office staff, helping maintain a continuous care plan – anywhere, from any device.

#### Join anywhere, on any device

AlayaCare's video conferencing feature is responsive and available from desktop and mobile devices.

#### A single solution

AlayaCare's video conferencing is built into the existing home and community care software for a seamless, end-to-end virtual visit workflow.

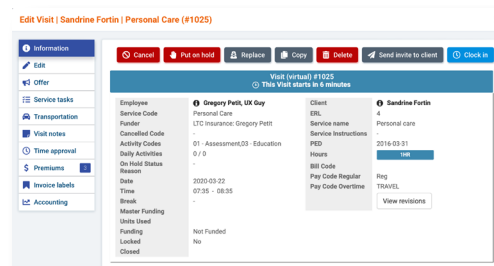

#### Secure virtual visits

AlayaCare's video conferencing feature is HIPAA compliant for secure virtual visits.

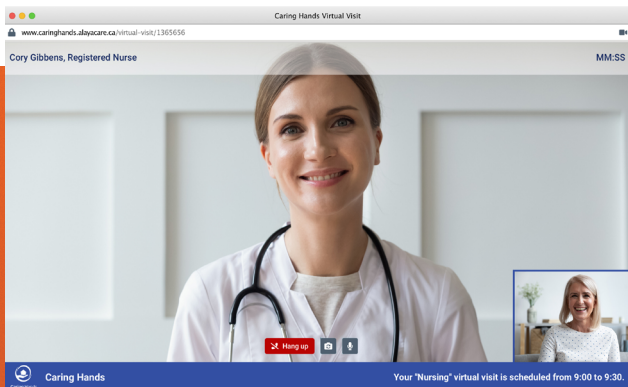

Video conferencing free to use for AlayaCare customers starting:

**April 6th, 2020**

**Better Technology, Better Outcomes.**  
alayacare.com | sales@alayacare.com

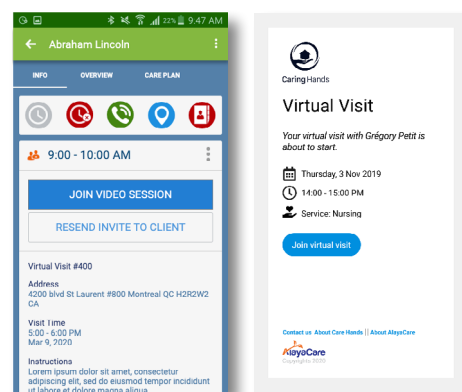

**COVID-19 is an extremely contagious, serious virus.**

Bring certainty and safety to your staff and clients with video conferencing from the leading home and community care software provider.

## Benefits of AlayaCare's Video Conferencing Solution:

- ✓ Built into existing AlayaCare module in a single environment
- ✓ Available across all product lines
- ✓ Each virtual visit set by unique client links
- ✓ Secure video feed between client and care worker or agency administrator
- ✓ Works seamlessly through Chrome, Safari, Firefox

**"Our commitment to our clients is to ensure they have the right tools at their hands to provide the best care possible. Virtual Visits not only provide more options for care delivery, but ensures that both caregivers and patients are safe and cared for under any and all circumstances."**

-- Patrick Charbonneau, VP of Product, AlayaCare

**AlayaCare is working to provide virtual care solutions worldwide.**
