

Relocation, Hibernation & Decommission Form

Below are the actions Zedi can take when it comes to your request for shutting in your well(s) and your Zedi service.

Available Options:

1. Relocation (Applicable to Smart-Alek units only)

This means:

- I have a location I can move this unit to
- I am aware of the \$295.00 fee associated with relocating a unit from one location to another
- I understand that a contractor will need to complete the relocation. I will inform Zedi if I require them to dispatch a contractor on my behalf

2. Hibernation

This means:

- I do not have a location I can move this unit to
- I am aware that I will still be responsible for the monthly communication fees that apply until I re-instate my unit
- I understand the monthly communication fee is a flat rate of \$56

3. Decommission

This means:

- I do not have a location I can move this unit to
- I am aware that I will be responsible for the 3 month communication fees
- I am aware of the full commissioning fees associated with re-commissioning the unit (**Smart-Alek re-commissioning fee is \$595.00; all other products are priced individually**)
- A contractor will need to travel to site to power down the unit. I will inform Zedi if I require them to dispatch a contractor on my behalf

Note: *The specific details of re-commissioning are determined by the option chosen.*

Please list all locations that you wish to have actioned.
