

## Easily turn your everyday data into increased part sales.

In today's competitive market, you'll need to go beyond simply monitoring your dealership's parts sales performance. Transform your everyday data into actionable insights to increase your parts sales within a single, robust business intelligence platform – LinkIQ.

### Let data illustrate your story

- All of your OEC and DMS part sales indicators available within one platform
- Proactively monitor and share key financial indicators like sales, margins, and returns
- Quick access to your holistic department and customer-level performance trends
- Easily view fluctuations in your customer's behavior to address it

### Access your data within the OEC platform

- Quickly view your entire department's performance with interactive, visual dashboards
- Drill down capabilities to understand the dynamics of your business at a holistic or customer-specific level
- Easy-to-use wizard to generate performance reports for all of your OEC solutions and DMS part sales invoices
- Quickly create and save reports with only the information you care about

### Turn insights into action

- Take action on your performance trends by applying our robust Part Sales Playbook
- Improve efficiency by viewing and engaging customers not leveraging OEC solutions
- Adjust pricing strategies by quickly viewing holistic and customer-level margins
- Leverage discounts by easily tracking OEM program reimbursements

# Reporting

## Make meaningful reports specific to your parts business.

Create standardized and ad-hoc reports to make smarter, customer-driven decisions for all of your OEC solutions and DMS part sales data in a single reporting suite.

**Quickly access data** you want to see with an easy-to-use report wizard

**Easily understand the dynamics** of your business with summarized performance reports by sales person, customer, and part number

**Quickly access what you really care about** by sorting, filtering, or adding/removing columns for your reports

**OEC Home** | **LinkIQ** | **D2DLink** | **DPA** | **CollisionLink** | **RepairLink**
