

ASX Release

JAYEX HEALTHCARE WINS FOUR-YEAR CONTRACT WITH COHEALTH

Melbourne, Australia; 29 November 2016

Jayex Healthcare (ASX.JHL) is pleased to announce that it has signed a four year contract with Cohealth, a non-profit community health organisation in Melbourne. Jayex was selected as the preferred tender in a recent submission to provide a queue management (patient arrival / calling and engagement) solution for Cohealth's new health centre in Footscray.

Cohealth provides a range of vital local health and support services including medical, dental, allied health, mental health, assisted living and counselling across Melbourne's CBD, northern and western suburbs.

The contract includes the installation of all the features provided by the Jayex Enlighten Platform including patient arrival, patient workflow management, patient calling, and will require integration with four separate practice management systems across medical, allied health and dental services. The installation of the Jayex solution is expected to commence in December and be completed by the end of March 2017. The contract is over 4 years with the majority of income payable on signing and installation and the balance in maintenance income over the next 4 years.

Commenting on the announcement Chairman Michael Boyd said "We are pleased and excited that Cohealth has chosen our solution, Cohealth is a substantial community health organisation and our ability to tailor our technologies to their specific requirements is yet another example of the strength of our technology. We continue to focus on rolling out our technologies across the UK and Asia Pacific Regions and look forward to reporting more successes in the near future."
