## PROJECTS

**INDIVIDUAL CAPSTONE PROJECT: HEALING HANDS - 2/2020 | devCodeCamp**

<https://github.com/kee-cha/Final-Capstone>

*A web-based application to allow users to search and book appointments for massage therapist.*

- *Integrated Google maps API, Geocode API, Directions API, and built own REST API to pull injury list*
- *Users can rate their experience and write reviews for the massage therapist*
- *Allows therapist to look at current appointments and provide documentation based on session*

**GROUP CAPSTONE: EVENT FINDER - 1/2020 | devCodeCamp**

<https://github.com/kee-cha/LastEventFinder>

*Designed a web-based application with a team to allow users to search for upcoming or current events held within user's area.*

- *Implemented Google map API, Geocode API, and Directions API to give users a visual map of locations to search for events for user to join.*
  - *Use TWILIO API allowing user the ability to rate events*
- 

## WORK EXPERIENCE

**PF Changs- (09/2007 to Present)- Wauwatosa, WI | Lead Server/ Server Trainer**

- *Trained new floor servers based on corporate standards*
- *Routinely maintain dining and kitchen area to be fully stocked and clean*
- *Handle orders and payments from customers*
- *Provide and exceed company standards for customer service*

---
