

ENGAGED TRACKING – ANALYST

Interested in climate finance and sustainable investment? Looking to gain more experience in this exciting area and join a dynamic team? Then this could be for you.

Largely, Analysts are responsible for the following: helping deliver the requirements of the Analytics team at Engaged Tracking; analysing individual companies and portfolios, writing-up of data analyses; mining large datasets by cleansing, transforming and modelling the data; using statistical methods and programming languages (principally R) to analyze, interpret, visualize data and the results as well as diagnose any issues in the data; adapt data requirements, definitions, analytics and data insights to the demands of investors; explore the use of ESG data via AI powered solutions; contribute to the strategic development and planning of data driven products.

Responsibilities

Your daily responsibilities will include:

- Writing scripts to perform analyses of the Engaged Tracking data
- Writing research reports using the data
- Participating in client calls to understand and respond to analysis requests
- Developing ideas for new insights
- Reporting problems with the data

Suggested experience/degree subjects:

- Interest in: Climate Change, Sustainability, Climate Finance, Greenhouse Gas Emissions.
- Degree subjects: Maths, Statistics, Sciences, Economics, Finance.
- Experience: Finance, Research and Data Analysis preferred.

Ideal candidate profile:

- Previous experience of research is desirable, but not necessary;
- A willingness to take the initiative and be able to work independently, as well as part of a team;
- Be resourceful, highly motivated and diligent;
- Excellent organisational skills and attention to detail is a must;
- Excellent computer skills;
- The ability to speak and write in French would be an advantage.

In return you will benefit from:

- Fantastic experience within a dynamic and enterprising team;
- Satisfaction in the knowledge you are at the forefront of the battle against climate change;

How to apply
