

It's not just another system...
It's a **revolution!**

For over 30 years, healthcare facilities around the world have counted on MIP for expert support in developing customized solutions for every situation.

As a result of the cooperative partnership between MIP and industry experts, MIP has developed the **Revolution Linen System**, which addresses key industry concerns throughout the entire linen handling process, including laundry, linen distribution, bed-making and soiled linen handling.

With the ultimate goal of enhancing the healthcare environment in mind, the Revolution Linen System is designed to:

- get the entire healthcare facility **working together**
- make it **easy to use** for every department
- bring **peace of mind** and accomplishment to each team member
- help **improve the quality** of patient/resident care

In support of these goals, we offer ways to **reduce**:

- Energy consumption
- Labor costs
- Linen usage

Plus methods to **increase**:

- Linen life expectancy
- Productivity of team members
- And patient/resident comfort

LAUNDRY

Together, we can focus on efficiency!

Improve your bottom line with MIP's UltraKnit and other synthetic products by benefiting from the following:

- **Reduce the need for re-wash** with stain-resistant products
- **Reduce drying times** by up to 50% with our synthetic materials
- **Save man hours** with products that don't require folding, ironing or extensive sorting
- **Save money** in replacement costs with linens that have 2-3 times greater life expectancy
- **Streamline your laundry operation** with our low-lint products – reduce the frequency of lint-cleaning plus a cleaner environment

Reach your performance goals and make the smart choice with MIP!

DISTRIBUTION

This is one System you can depend on!

The Clean Linen Cart: Ease of use, ease of distribution.

- **Increase staff protection** by avoiding injury with our ergonomic design
- **Speed up the daily chores** with easy access to linen needs
- **Customizable** for the specific needs of each ward
- **Save money** with a long-lasting, durable construction that withstands demanding environments
- **Space for every need** with a greater capacity and dedicated locations for maximum efficiency
- **Personalized options** include PVC mesh covers, color coded bags and more
- **More time is gained** to focus on patients/residents!

The distribution solution developed with all stakeholders in mind!

BED-MAKING

Changing more than just linen, changing the way you deliver care, comfort and efficiency!

Why is the Revolution Bed Concept right for your facility?

Simplicity for the staff, better bedding products for the patients/residents!

The **Revolution Bed Concept** is a collection of products designed for:

- **Faster bed-making** because linens are easier to put on and stay on beds
- **A simpler process**, with less items to think about
- **Achieving desired warmth** for patients/residents, while using fewer linens
- **Greater patient/resident comfort** with high quality, skin-friendly linen and attractive look

No need to choose between efficiency and patient/resident comfort - You can have it all!

SOILED LINEN HANDLING

**Streamlined system
so that you can focus
on the task at hand!**

**At MIP, we understand what it
takes to make handling soiled
linens as secure, discrete and
efficient as possible.**

Our **Soiled Linen Carts** make handling easy
and safe for staff.

- **Hygienic transportation** of soiled linens in reusable laundry bags
- **Secure positioning** with a retaining ring for bags
- **Long-term durability** from stainless steel frame
- **Reduced odors** and **improved infection control** from snug-fitting lids and hands-free optional foot pedal
- Available in 1 to 4 bag configurations

**A practical solution for your
facility's safe management
of soiled linens!**

SOILED LINEN CART

"Cut down hours and hours of handling time in laundry – No more folding towels, sheets, pillow cases – They're great!"

– Support Services Manager

"Revolution is a linen system that has created many efficiencies within the daily tasks of both housekeeping/laundry and nursing staff."

– Nadine Ternovoy, Assistant Administrator, Kensington Shepherd's Care

"A great solution to an effective system. It's an organized process that saves you both time and money."

– Nancy Cail, Administrator, Rexton Lions Nursing Home Inc.

"It's a good system, it certainly saves time and it looks nice."

– Jo Anne Holloway, Administrator

"Everything I need in one place, lots of it and nothing falls off!"

– Lynn, Support Services, Vernon Jubilee Hospital

It's not just another system... It's a **revolution!**
