**Amy Luby Joins Infogressive as Vice President of Channel Sales**

*IT Veteran to lead the Managed Security Services Provider's Channel expansion*

**Lincoln, NE:** Infogressive, a long established Master Managed Security Services Provider, announced today the hiring of Amy Luby as the company's new Vice President of Channel Sales.

A successful entrepreneur and leader in the Global IT Services Channel, Amy joins Infogressive in the newly created position of Vice President of Channel Sales. In her role, Amy will establish and grow the company's Channel strategy, while driving a national expansion into the MSP Channel.

Infogressive, a Master Managed Security Services Provider (MssP) has been delivering managed security services for over 11 years. Infogressive has built their comprehensive Security Platform to give MSPs quick and easy access to a full suite of Security Services to deliver to their clients which include: Perimeter Security, Email Security, Vulnerability Management, Endpoint Security, Threat Monitoring and Management, and Professional Security Services like Penetration testing. All backed by a deep bench of seasoned security engineers and a 24x7 SOC (Security Operations Center).

Justin Kallhoff, Infogressive founder and CEO had this to say "We're lucky to have a seasoned, successful leader like Amy join our team at a perfect time. Infogressive continues to experience explosive growth. Amy will only accelerate our success. Our entire team is thrilled to have this difference maker begin her Infogressive career and join our mission to protect our customers and partners from hackers.

Amy brings 22 years of experience in the IT Services Channel to the Infogressive brand. Most recently Amy worked at Erbs Technology Services, a large VAR in the Midwest as Senior Vice President of Operations to help them pivot into an MSP model. Prior to that she held senior Channel positions at JetStream Networks, MailProtector,

Trend Micro, and SYNEX Corporation. In each of these roles Amy has taken on challenging assignments in establishing new business units performing primarily in cross-functional matrixed roles to establish vision for the Managed Services initiative, put the technology in place, build the sales and support teams, as well as the operations around delivering high quality technical services to the Channel.

Amy is also a proven entrepreneur and pioneer in the IT services industry having founded and built one of the first Managed Services Providers (MSPs) in the country. She then expanded that into one of the first Master MSPs, defining that business model in the process.

Amy's successes in the Channel have not gone unnoticed. She is the recipient of numerous Channel awards including: CRN Channel Chief, MSP Mentor Top 250 Influencers, MSP Mentor Top 100 Global MSPs, SMB Nation's SMB 150, and COMPTIA's Industry Leadership Award.

"Infogressive's long history in delivering Managed Security Services is quite impressive. I am looking forward to working with the team to build out this program and crystalize Infogressive's position as the premier Master MssP in the Channel."

At Infogressive, we live and breathe cybersecurity.
