Xybix's New Soft Edge

Littleton, CO (June 10, 2012) – Xybix Systems, Inc. début its new DuraFlex Soft Edge at the 2012 NENA show in Long Beach, CA. This soft edge is the perfect solution for those who rest their forearms or wrists on the edge of their desk. Perfectly suited for heavy use in a communications center, DuraFlex Soft Edge is durable, impact and puncture resistant. Its ergonomic profile provides user comfort while reducing the risk of injury. Available in a variety of color options, DuraFlex Soft Edge provides arms and wrists all day comfort.

About Xybix

Founded in 1991, Xybix Systems, Inc. has earned the reputation over the past 20+ years as the innovative leader in manufacturing ergonomic dispatch furniture and consoles for 24/7 mission critical environments.

Professional expertise in design and ergonomics, combined with functionality create state-of-the-art dispatch consoles. Xybix's furniture can be found in communications centers throughout the United States and Canada. Xybix helps users everywhere achieve better health.

Xybix Innovation

From the beginning, Xybix has been a leader in ergonomic furniture. From workstation design, to computer storage, panel systems, cable management, equipment and accessory options – each Xybix console has been proven to be in compliance with the latest ergonomic standards - setting it apart from competitors. Xybix's GREENGUARD® Certified consoles offer the flexibility and durability needed, while comfortably equipping Dispatchers, Public Safety Professions and Radiologists everywhere for the demands of their job.
