

Quickly and easily add monitors to any Xybix work station with Quick Stack.

Users can be rest assured with any future growth or expansion that their Xybix workstations can accommodate new or larger monitor additions.

Quick Stack Benefits

- Add monitors quickly and easily to existing Xybix workstation monitor array with Xybix's monitor mounting Quick Stack option.
- Xybix patented Rollervision® allows for simple monitor replacements, updates and upgrades.
- The modularity of the stack on option allows for future upgrades to accommodate more and larger screens.
- An entire second row of screens can be added to existing workstation.
