

# DUAL-SURFACE EAGLE WORKSTATIONS FOR 911/DISPATCH

Height-adjustable ergonomic desks and consoles for Public Safety,  
PSAPS, Call Centers and more.

## Workstation Lift System

Ultra quiet, large profile lifting columns allow keyboard and monitor surfaces to lift independently. Precise ergonomic adjustments can be made with these durable electric table legs.

## Dual Height-Adjustable Work Surfaces

Finding your optimum ergonomic seated or standing position is now easier than ever with a monitor and keyboard surface that adjust height independently.

## RollerVision™

Proper focal depth adjustment is a key metric in achieving ergonomic health. Move your monitors simultaneously forward and backward to reduce eye strain.

4

### DataDock™

Easily connect your keyboards, mice and other devices without a costly call to IT and the lost productivity associated. Configurable to connect: USB, CAT6, phone and data equipment as well as additional plug-ins.

5

### Privacy Panel Systems

Optional acoustical tile panel systems will reduce noise pollution and aid in concentration. The panels are a perfect solution for open areas where privacy is required.

6

### Electronic Equipment Storage

Finding space for CPU's and other electronic equipment is simple with one of our flexible configurations. CPU cabinets and Tech Towers are customized based on equipment needs.

7

### Status Indicator Light

This multi-colored, configurable light provides managers and users the ability to see the status of team members for better responsiveness and management.

8

### Work Surfaces

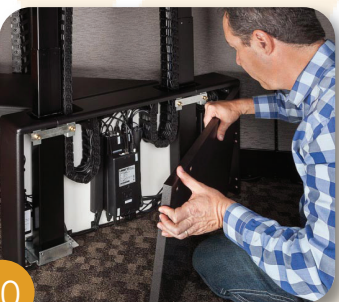

Complete the look of your room with a customizable range of optional additional work surfaces for extra workspace, storage and organization.

9

### MyClimate - Personal Climate Control

Control your environment and comfort at your finger tips, using MyClimate personal climate controls. Controlling your immediate environment, heating, cooling and lighting can lead to a more productive work day.

10

### Cable Management

Proper cable management will eliminate clutter and simplify the appearance of your workstation. End-to-end cable management will rid you of loose connections and that "rat's nest" of cables. Technicians love the easy access, quick changes and reduced maintenance.
