

Xybix Protect™ Cleaning Services

Now, more than ever, the last thing you need to worry about is operational downtime when your essential employees gets sick. Introducing Xybix Protect™, which ensures your operations center is next-level clean.

Welcome to Xybix Protect™ Clean

Xybix Protect™ is a workstation cleaning service that cleans and maintains your consoles and workstations for optimum health and hygiene for your people and your workspace. Using the highest quality cleaning solutions and methods, Xybix Protect™ helps ensure the safety of you and your mission-critical employees and preserve your 15-20 year investment in your Xybix workstations. Best of all, our team of experienced professionals cleans and disinfects your mission-critical workspace with no downtime.

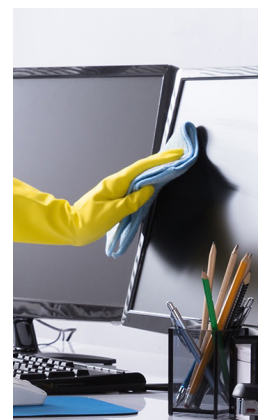

The Xybix Protect™ Difference

Our Xybix Protect™ cleaners will clean and disinfect your workplace while your operations center stays live and uninterrupted. Our professional low-decibel cleaning system allows your dispatchers to continue doing their jobs with minimal noise or interruption. Xybix Protect™ is the only approved service to clean Xybix workstations and we use only the finest non-chemical solutions to deliver healthy, clean results.

Highly Skilled and Certified

The Xybix Protect™ team of professionals is highly trained and familiar with the protocols and security measures for public safety, command and control, and other 24/7 mission-critical environments.

- Xybix Protect™ employees are CJIS-Certified and background-checked
- Our cleaning solutions are safe and chemical-free
- Xybix Protect™ is licensed, bonded, and insured
