

EMPOWERING RECRUITERS TO DO MORE OF WHAT THEY'RE GOOD AT: RECRUITING

ON-THE-GO, MOBILE SALES ACCESS

The Recruiter Module isn't just for recruiters. As an anytime, anywhere Module, your entire sales force can use the Recruiter Module to keep track of daily activities by logging Messages and easily pulling up and entering Contact and Company information on the go. With a simple click on the map icon, a Customer's location will open immediately via your device's map application. A simple way to keep your sales pipeline up-to-date while out on client visits.

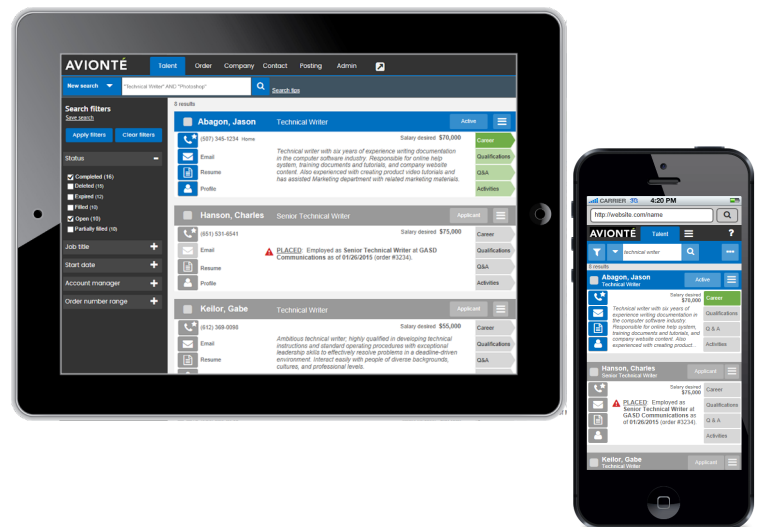

ADVANCED BOOLEAN SEARCHING

With advanced Boolean searching, you will be able to conduct multiple searches to quickly find the most relevant results. This searching, paired with dynamic filters, allows you to pinpoint the top results for the competencies, names, etc. you are looking for.

Relevancy indicators rate the results most relevant based on both the keywords and context of the search results. Within seconds, you'll pull up a viable list of candidates to review for a Job Order.

FAST, EFFECTIVE RESUME PARSING

Using top-notch resume parsing technology, you will have an applicant's information at your fingertips shortly after they apply. From relevant Competencies to Work History, you'll have all the information you need quickly.

QUICKLY & EASILY CONTACT TALENT

In an instant, recruiters can click to email, call or log a Message about their conversation with talent. By housing all the information on an easily accessible talent profile, recruiters can quickly pull up information from their last conversation, access Order History, talent documents and more — whether in the office or on the go.

ANYTIME, ANYWHERE, ANY DEVICE

The Recruiter Module is accessible anywhere, anytime, via any device. That means your entire team can use the same system, to help ensure your team is all on the same page.
