# WELCOME TO THE 2018 CATALOGUE

## Dear Customer,

**Welcome to the 2018 edition** of TTI's comprehensive **product catalogue**. Whether you're a long-standing customer of TTI or perhaps considering your first purchase, we would like to warmly invite you to browse through this informative new guide.

At TTI we believe in more than just our products. We believe in **partnering with our Local Active Dealers (LAD's)** to enhance their reputation in their **community**. This is done through the products we supply, the knowledge we seek to impart, the merchandising we provide and the marketing we offer, all contributing towards a winning combination!

**TTi has been manufacturing for over 17 years** and has gained a huge wealth of industry experience in this time. We hope that you will see this reflected in the presentation and functionality of our product range.

Thank you again, we sincerely look forward to working with you.

Kind Regards,

**Ross Buchner** | General Manager

# DIFFERENCES BETWEEN AQUAMOVE AND AQUATRANS

There is nothing much in the way of a rotationally moulded polyethylene water cartage tank that compares with the **TTI AquaTrans tank range**. A really heavy-duty tank with a 20 year warranty is just part of the deal. The **Aquatrans** is a **premium product** and is in a league of its own. *This is the bees' knees!*

Without any compromise, the **AquaMove range** has been introduced to be a player in the price sensitive end of the market. With a slightly lighter design than the AquaTrans and a 15 year warranty, **this is the everyday range**.

# The Toughest Tanks!

OUR **POLY TANKS** ARE AS **TOUGH** AND **DURABLE** AS THEY COME - EVEN AFTER A MISHAP!

## CHECK OUT WHAT OUR CUSTOMERS SAID!

I can't speak highly enough of them. **These guys go above and beyond to help us and our business grow.** I could not recommend a better company to deal with.

- **Fiona Colomb** - Farm City Lidcombe

I just made an enquiry in regards to a **95 litre 12 Volt Unit with a boom**, I would like to thank you for your **advice, assistance, prompt, efficient and excellent service.**

- **Susan**

Our **RCCF grant recipients** in Stirling North who purchased one of your **800 litre Fire Fighting Units**, recently put it to good use to prevent the spread of a fire on his neighbours' property.

- **Fire & Emergency Services Commission**

Many thanks Ross. What **fantastic service** you have provided. You've gone above and beyond.

- **Jenny Schwieger**

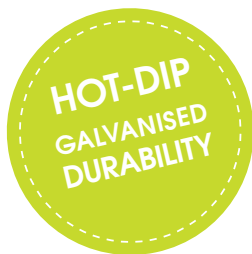

We purchased a **TTi** (formerly Rapid Spray Southern) 10,000L tank approx. 8 years ago. Our truck with the tank on it drove over a bridge into a rural property to deliver water and the bridge collapsed, causing the truck to roll. The tank bore the brunt of the impact and we couldn't believe it but, after we righted the truck, the next morning the tank just 'popped' back into shape and away we went again! We also have a 12,000L steel tank (properly made and correctly mounted) and the ongoing maintenance with fatigue and the like is a pain. We would highly recommend a **TTi** tank to anyone looking to cart water safely!

# AIXR TeeJet® VisiFLO®

## AIR INDUCTION Angle Flat Spray Tips

Tapered edge wide angle flat spray pattern for uniform coverage in broadcast spraying. Large, rounded internal passage to minimize clogging.

Excellent resistance to corrosive solutions

Superior wear characteristics

Larger droplets for less drift; 15–90 PSI (1–6 bar)

### Applications

Herbicides, fungicides and insecticides
