## Civil and Industrial Product Guide

# 2020

Dear Customer,

Welcome to the 2019 edition of TTI's comprehensive **industrial product guide**. Whether you're a long-standing customer of TTI or perhaps considering your first purchase, we would like to warmly invite you to browse through this informative new guide.

With over 20 years' experience in roto moulding, liquid transport tanks are the backbone of everything we do and are at the heart of every safe product produced!

Our extensive range of high quality, fit-for-purpose liquid transport and application products, maintain, protect and create a safe method for getting liquids to where they are needed.

Investing in a TTI product is not only an insurance policy, it will ALSO enhance your image in the field!

Kind Regards,

Ross Buchner | General Manager

### Facilities

# AquaTrans™ » Liquid Cartage Tanks

The TTI AquaTrans and AquaMove free standing poly water cartage tanks are designed and moulded to perform under any conditions, earning their reputation as 'The Safest Tanks in Motion.'

## Features:

### ✓ Rust-Proof

The nature of polyethylene also means it is resistant to rust or corrosion

### ✓ Lightweight

Poly is half the weight of steel!

### ✓ Durable & Flexible

Handles chassis twisting & vibration with ease

### ✓ 20-Year Warranty

Backed by our 20 Year full warranty

# FloodRite™ Storm » Civil Spec Water Truck

Designed to withstand the harshest of conditions, the Storm Water Truck will deliver greater efficiencies when applying water on site.

15000 Litres

Capacity Options: **13,000** & **15,000** Litres

From **\$57,000** Ex GST  
Truck not included

Now Featuring!

## 10080 XHD Water Pump

The 10080 XHD Series water pump is designed and manufactured in Australia specifically for water trucks. 10080XHD pumps offer optimum performance for dust suppression applications.

A robust design ensures maximum service life in the harshest conditions.

Now Featuring!

## TouchStream Technology

Unlike hydraulic driven water pumps, where water flow varies with engine rpm, TST technology delivers constant water flow, regardless of the RPM.

The advantages are reduced wear and tear on both pump and truck, significant fuel savings and constant water flow.

Note: Only with Hydraulic Driven Pumps

### Options

Pressure Bar

Dribble Bar

Water Cannon

Front Sprays

Drop Bar

Side Batter Sprays

# FloodRite™ Cascade » Landscape Spec Water Truck

The ultimate landscape spec water truck! This purpose built water truck is designed to save watering time by being more accurate, simple to use and easy to operate.
