# Advice

---

What do you wish you knew then that you know now?

# Current Integrations

---

What data do you currently have integrated into Mirus?

How and by whom is the decision made on what data to bring in next?

# Valuable Insight

---

What is the most valuable insight you have found using Mirus?

# Mirus Administration

---

How has your company rolled out reports and dashboards across your organization?

# Mirus Administration

---

Which departments are currently using Mirus?

Are there any other departments that would also benefit?

# Report Writing

---

What is your company's new report development process?

Which users have access to create new reports?

# Future Ideas

---

What new reports or data integrations are you considering over the next year?
