

Welcome to Amplify Reading!

Dear Partner,

Welcome to Amplify Reading K-5! LAUSD has provided Amplify Reading as a supplemental resource for teachers and students in Title I schools. Enclosed please find **updated** program information to support your school in launching Amplify Reading!

What is Amplify Reading?

- An integrated solution that leverages your DIBELS data to place students in the right learning progression for their skills.
- A supplemental digital curriculum that teaches literacy skills through a captivating game world.
- An adaptive, research-based program that immerses students in language, decoding, and comprehension and differentiates instruction based on student progress.

Students should be assessed in mCLASS prior to getting started with Amplify Reading. To help get started, please share the enclosed information with teachers, education coaches, and/or any technical leads who will support the use of Amplify Reading in your classrooms. This includes:

- Amplify Reading Technical guidance
- Amplify Reading K-2 Classroom Launch Packets (device setup, user login, resources for support)
- Amplify Reading 3-5 Classroom Launch Packets (device setup, user login, resources for support)
- Information about DIBELS 8

This information will also be posted digitally at amplify.com/lausd/amplify_reading for reference - please feel free to make copies or print additional resources as needed.

We look forward to working together as your students progress on their journey to becoming confident readers.

Best,
The Amplify Team
