3G-Rating

Rating Done Better.

Unmatched Power. Unequaled Usability.

3G-Rating simplifies rating against the most complex contracts to return the best rates identifying the least cost carrier and managing upcharges to your customers.

Easy access to multiple rate options, and delivering accurate rating results permits planning using actual shipping costs and service standards ensuring comprehensive delivery calculations and the best scenario planning.

Grow Your Business & Margins

Expanding your LTL offering efficiently by expanding the options more. Engage in a wide variety of contractual options with your carriers and customers that can translate to better margins.

Flexible to Support Your Business Process

Fast and easy access to accurate rates enables offering web service rating to your shippers who desire to directly get carrier transit time and cost.

Use stand alone for freight auditing or fully integrated into your TMS.

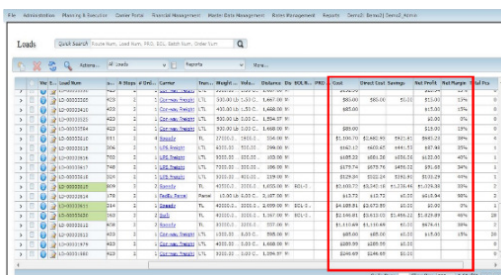

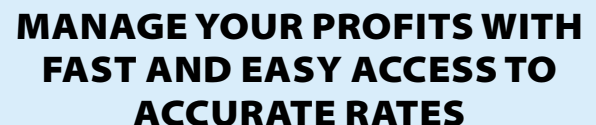

- Rating Engine for LTL, TL and Parcel

- Calculate rates better than your carrier

- Calculates actual costs for carrier/ service selection

- Fast and easy access to accurate rates and accessorials

- Auto-LTL Freight Class -use dimensional information to determine freight class

- Native library is available of most popular LTL rate bases and carrier service standards available, or bring your own SMC3 license

- Available neutral rate base at your option

- Calculates your sell rates using markups, benchmark rates, fixed fees and other methods supporting a variety of business models

MANAGE YOUR PROFITS WITH FAST AND EASY ACCESS TO ACCURATE RATES

3G-Rating Delivers the Clear Choice in Transportation Software

3G-Rating is a comprehensive transportation management solution supporting the complete order to cash lifecycle of your transportation orders helping you manage service levels and both direct transportation and operational costs.

3G-Rating supports the business models of shippers, 3PL and brokers in a single platform providing unparalleled performance and unmatched usability in the TMS space.

- *Plan executable loads*

- *Unparalleled performance and functionality*
- *Unmatched customer service, second to none*
- *Understanding and delivering TMS solutions better than anyone*

TMW
A TRIMBLE COMPANY

What shippers and logistics service providers want most is to have the accurate rates up-front. Getting different rates between the estimate and the invoice will cut into profit margins.

WE ARE PASSIONATE ABOUT TRANSPORTATION. CONTACT US AND SEE HOW WE CAN HELP!

You Know TMW Systems
